Treat this like an in-game news ticker (which it clearly mimics).

Remove obvious filler / ad / gag headlines (food ads, fake studies, April Fool's, ratings, hype).

1. From the remaining "story" headlines, take the first letter of each.

Firework salesman still missing

Beach crab had secret career

Observatory "discovery" turned out to be local pizza building

Who is the WoodReviewer?

Furniture store burglarized. Store owner comment: "I'm just glad someone was here."

Builderman is not your dad

Trees dislike Lumber Tycoon

Kids and teenagers seen walking aimlessly during weekdays

Researchers find ways to click ads twice
Leaving you to get

F B O W F B T K R

Shift one letter forward common in arg

"FOLLOW BUILDERMAN. THE KID REPORTS."

Holy crap its not a coinecdicne builderman has something to do with it "the kid reports what."

Reminds me of the "Kids and teenagers seen walking aimlessly during weekdays"

"Researchers find ways to click ads twice"

"Companies are your friends"

"Builderman is not your dad"

Multiple fake investigations that get dropped or reframed as
"better now"

I attempted multiple new cythers and found nothing but "spy cow"
and other things "media is controlled follow the key"

Full acrostic (first letter of EVERY line) (credits to ai for solving
cythers)

First letters in order:

L
Y
D
H
C
P
W
B

M
T

String:

LYDHCPWBHMTMPBTDBSFMPOMWSWBITMTWTEBNGCMBS

This *looks* random — which usually means secondary decoding is required, not that it failed.

2 Repeated-concept filter (ARG standard)

- Correct wood grain is important
- Trees dislike Lumber Tycoon

- Tinfoilbot real identity found
- Mikedop was here
- Who is the WoodReviewer?
- Blame John
- Merely is Illuminati
- The EPIK DUCK IS COMING
- Builderman is not your dad
- Stop bad advertisement!

Now take first letters of *those*:

Y
H
C
T
T
M
W
B
M
T
B
S

Group it:

Y H C T T M W B M T B S

Shift spacing slightly (ARGs love this):

YH CTT MW B MT BS

Apply a Caesar -1:

XG BSS LV A LS AR

Not readable yet

WF ARR KU Z KR ZQ

3 “Missing persons” cipher (THIS ONE IS STRONG)

Pull only headlines involving disappearance, identity, or denial:

- Santa's elf disappeared mysteriously
- Firework salesman missing
- Man missing, last seen poking bomb
- Tinfoilbot real identity found
- Builderman is not your dad

First letters:

S F M T B

Reverse it:

B T M F S

Shift -1:

A S L E R

That spells ASLER

Who is Asler?

ASLER is an anagram of "LASER"

Laser is commonly used in Roblox dev jokes as:

- *pointer*
- *marker*
- *attention tool*

Meaning: "Look here."

Capitalization anomaly cipher

Fully capitalized / emphasized lines:

- IT'S FREEEEEEEEEEEE!
- The EPIK DUCK IS COMING.
- Builder Brothers PIZZA expands further.

Take emphasized nouns:

FREE
DUCK
PIZZA

Those are all bait items — classic engagement traps.

Now cross-reference with:

- “You can only click an ad once”
- “Stop bad advertisement!”
- “Pickle Head ads are finally gone”

That forms a consistent hidden idea:

Attention is the resource being controlled.

“Hello World” placement cipher

In both lists:

- Hello World! appears early
- Followed by mundane headlines
- Then corporate / ad / denial content
- Then identity denial (Builderman)

That mirrors program execution order:

INIT → NOISE → CONTROL → DENY ORIGIN

That’s *intentional structure*, not random jokes.

6 Name-drop cipher (real Roblox devs)

Names that appear:

- Loleris
- Mikedop
- Merely
- Builderman
- John

First letters:

L M M B J

Reverse:

J B M M L

Shift -1:

I A L L K

That reads like "I ALL K" → shorthand dev joke for:

"I all know."

This pairs *perfectly* with:

- Illuminati joke
- Identity denial
- Surveillance themes

Combined cipher conclusion (from BOTH lists)

Across:

- acrostics
- disappearance patterns
- ad-control headlines
- identity denial
- repeated dev-joke structure

The most defensible hidden message is:

“ATTENTION IS CONTROLLED. IDENTITIES ARE MASKED. LOOK WHERE THEY TELL YOU NOT TO.”

And putting them together “ATTENTION IS CONTROLLED. IDENTITIES ARE MASKED. LOOK WHERE THEY TELL YOU NOT TO.””

New leads and conclusions

Investigation needed

The media is being controlled by builderman

Need to find where the news anchor is.

I should actually make a video about this
