

Canvas Deep Integration Course Copy with Connect

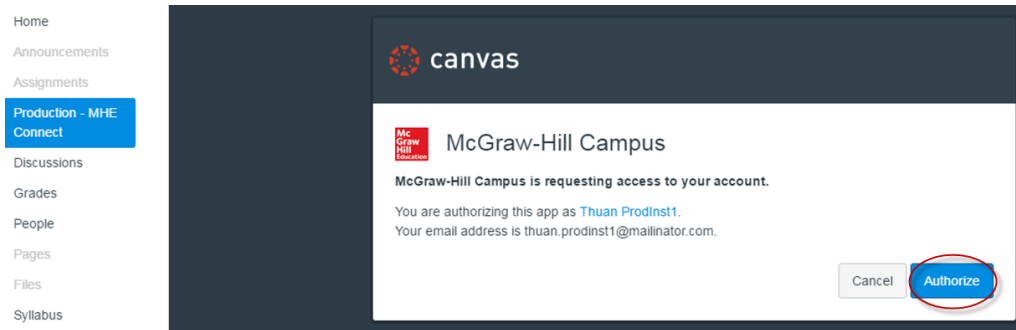

- 1) In Connect, copy/duplicate/share the Connect course and section(s) that corresponds to the Canvas course(s) that you are teaching in the new term. **Note:** If your school/course coordinator copies/duplicates/shares out the Connect courses to you, please skip this step.
<http://createwp.customer.mheducation.com/wordpress-mu/success-academy/how-to-share-and-copy-sections/>
- 2) In the Connect section, change the dates for the Connect assignments as needed.
<http://createwp.customer.mheducation.com/wordpress-mu/success-academy/changing-and-shifting-dates/>
- 3) In Canvas, copy your Canvas course. **Note:** If your school/Canvas admin copies/creates your Canvas course, please skip this step.
- 4) In Canvas, go to your Assignments list in the new Canvas course and remove all the Connect assignment links that were copied over.

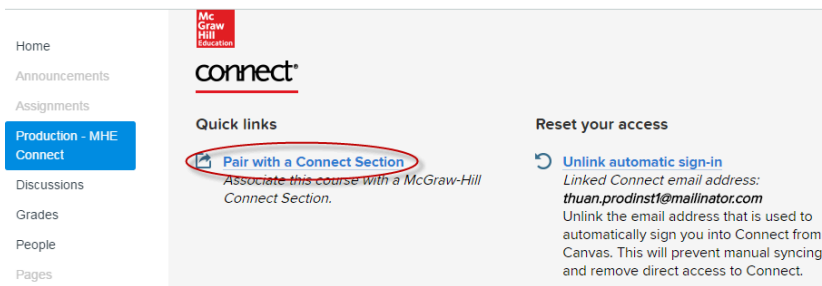

Note: Clicking on a Connect assignment link that was copied over from another course will result in the error message below.

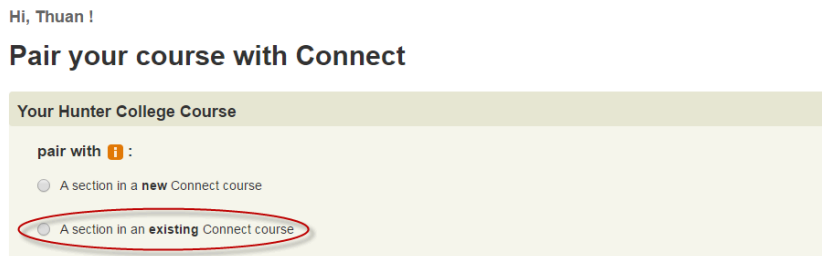

- 5) Go to the Connect widget link in your left navigation and click **Authorize** to enable the McGraw-Hill Campus access

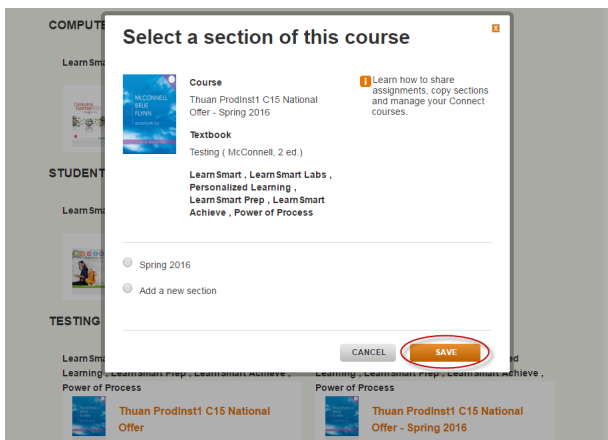

- 6) Click the **Pair with a Connect Section** link

- 7) Select **A section in an existing Connect course** and select the course that was copied

- 8) Select the section that was copied and click **Save**

9) You have completed the pairing process.

pair your course with Connect

10) Deploy your Connect assignments to Canvas

<http://createwp.customer.mheducation.com/wordpress-mu/success-academy/deploying-connect-as-signments-to-canvas-2/>

11) Organize the Connect assignments in Canvas as needed. **Note:** Any changes to the Connect assignment settings/properties (assignment name, dates, points, etc) should be done directly in Connect. Those changes will automatically flow over to Canvas.
