Guidelines for Extracurricular International Programming Grants funded by the International Programs Committee, 2016-2017 Academic Year

The International Programs Committee invites proposals from faculty, staff, and student organizations for small grants in support of extracurricular international programming on the UMM campus. The amount per grant is quite modest and these are designed to augment other funds, in most cases, rather than to provide the primary support for an activity.

Examples of eligible projects would certainly include (but not be limited to) such activities as:

1. sponsorship or co-sponsorship of the visit of an international speaker or performance artist;
2. presentation of a foreign film;
3. sponsorship or co-sponsorship of an international meeting held at UMM.

Projects supported in 2015-16 included the International Education Week event, “Pounce Around the World” and the Spanish Theatrical Performance.

Supported projects must be open to attendance by the entire UMM community. This grant is not intended to support curriculum development or international travel, nor is it intended to fund activities that have historically been funded by existing UMM administrative units.

Proposals will be considered on a rolling basis, throughout the year, until the Friday of Spring Break. Due to the limited amount of funds available, applicants are urged to apply as early as possible.

The application form is downloadable from:
