

Good day Esteemed members of Site 65 Research Command,

As of 24/05/██ you are being assigned a project by myself, the **development of anomalous imagery and symbolism** in service of the Foundation's mission.

You may utilise Memetics, infohazards, Thaumaturgy, Theology or even Noospherics and Semiospherics fields of research.

I will list the desired outcomes, however do not limit your research to just these aims. Anything useful will be utilised.

- Information Transfer
 - Small snippets e.g. SCP files, or even entire personalities
- Suppression / Amplification of emotions or instincts
 - For example, reduced fear and pain
- Conversion of loyalties / recruitment
 - For example, converting Chaos Insurgency to Foundation loyalists

Keep me apprised of your work, and remember;

Ideas have power.

May you have a pleasant day,

-Charles Whitmee
