Abstract

(English) Contains a detailed summary of the research conducted and written in 1 paragraph consisting of 200-250 syllables. Written using Cambria Font10 pt, Bold, spacing 1, spacing before 1.0 pt. Coherently from the beginning, explain the research objectives and designs used in the research as well as each mechanism and data source used in obtaining the desired data. In addition, it contains a brief explanation of the research results and a brief and detailed discussion and the Novelty or new value of the research results that you have done and its implications for the world of Education so that it can be used as reference material for conducting subsequent related research.

Abstrak

(Bahasa Indonesia) Contains a detailed summary of the research conducted and written in 1 paragraph consisting of 200-250 syllables. Written using Cambria Font10 pt, spacing 1, spacing before 1.0 pt. Coherently from the beginning, explain the research objectives and designs used in the research as well as each mechanism and data source used in obtaining the desired data. In addition, it contains a brief explanation of the research results and a brief and detailed discussion and the Novelty or new value of the research results that you have done and its implications for the world of Education so that it can be used as reference material for conducting subsequent related research.

Keywords: Please enter a maximum of 3 keywords

INTRODUCTION

Written using Cambria font11 pt, Bold, 1.0 spacing before 10 pt. The introduction contains a general analysis of the situation related to the urgency of the research you are doing or in accordance with the topic of study in the research you are doing. The contents of the introduction that you enter in detail include the background of the problem supported by factual evidence so that you may include in detail the results of the initial observations that you have made as part of your research process.

The background presentation can be strengthened with a literature review or related research results that are directly cited according to the topic relevant to the research you will conduct. In each paragraph, you can include each citation to support primary information that refers to each related research.

METHOD

Written using Cambria font11 pt, Bold, 1.0 spacing before 10 pt. The research method you use must be described in detail and sequentially starting from the type of research, sample selection method, data collection techniques and data processing processes that you do quantitatively and qualitatively and can include data triangulation results if this is done in the research process you do. In the method, avoid using general concepts and focus more on the research design you choose and can refer to the results or opinions of experts according to the related research method you do.

RESULTS AND DISCUSSION

Written using Cambria font 11 pt, Bold, 1 space, 0 spacing before 10 pt Is the result of the presentation of the research results that have been obtained which are included or discussed in the form of comparative analysis results or descriptive studies and so on according to the research you have done. The results are presented logically and contain relevance that is integral to the context of the literature as a study material that is carried out in real terms to support each research result that you have obtained.

If Using Tables

Contains in detail every specification and component measured using clear instruments in the research process. Each Tables are numbered according to the sequence (Table 1, etc.), with a center justified position.

No	Aspect	Skill Indicators
1	Fluency	Loading every aspect in detail
2	Flexibility	Organizing the suitability of each research data result in a cohesive manner
3	Originality	The complexity of each research result is a research result that has novelty so that its implications can be felt widely.
4	Elaboration	The combination with previous research results is able to explain values that can be applied directly.
5	Metaphorical Thinking	The organization of each research result is contained in detail and can be easily understood by the wider community.

Next, you can enter the results of the descriptive analysis in the form of analysis results using certain applications (SPS, etc.) as a form of data representation, for example, a summary table of data analysis results.

Table 1. Table Title

Model	Sum of Squares	df	Mean Square	F	Sig.
Reg	2363464	4	230498.39	238.35	.000b
b1, b2	34,464	2	383384	30,585	
b1, b2, b3	23,567	4	230,459	3309.484	
Residual	257	94	349,3844		
Total	345,277	97			

If Using Images/Graphics

The research results can be supported and represented with appropriate images so that they can provide complete information and reasoning. Each The images are numbered according to the sequence (Figure 1, etc.), with a center justified position.

CONCLUSION

Written using Cambria font 10 pt, Bold, spacing 1.0 spacing before 10 pt Contains conclusions that can be given in accordance with the research results obtained. Pure conclusions from the results of research conducted and may not include references or sources obtained or cited from the research results of others..

Conclusions are arranged in paragraph form (**not in the form of numbering is better**), which is arranged logically and presents the correlation of each research result obtained and its main implications in the field of education or the general public.

REFERENCES

It is recommended to use APA style using the Mendeley or Zotero reference manager application consistently so that each literature review result can be included in the bibliography used to support each research study result that is considered relevant or appropriate. By using Mendeley, each bibliography will be automatically sorted automatically. The number of citations entered is at least 15 relevant citations and comes from publications in the last 5 years with right and left alignment in Cambria 11 Pt Font. The following is an example of a citation using APA Style.
