Create sight words activity books at scale  
This is a niche that has massive demand...  
These books could be your big sellers...

**Body:**

Hey,

When it comes to selling books on Amazon KDP the niches play a big role.

If you have been in the know about Amazon KDP for any length of time you know this and getting into the right niche can get you the dividends that you expect from the hard work you put into your books.

One such massive niche that has a lot of room for growth is the sight words workbooks niche.

Just head over to Amazon and search for these books, you will see the number of books that are selling like wildfire.

Imagine if you could create your own series of sight words books and tap into this niche.

But then those are difficult to create - you ask!

I would go so far to tell you that it is impossible to do that manually given the amount of time it takes.

That's the reason why Niranjan decided to take matters into his own hands.

Niranjan and his awesome team of high end software developers have been working on creating a very high end app that creates these types of books.

I have been testing out over the past week and I am super impressed.

On the 23rd of May they are releasing the **Sight Words Worksheets Generator [YOUR AFFILIATE LINK HERE] app** and this is something you really want to take a close look at.

In the next email, I am going to let you know a bit more about the kind of content that you would typically be creating in the niche.

Until then...

Sight words books at scale?  
This is the blue ocean opportunity...

**Body:**

Hey,

Over the past week or so I've been reviewing something really exciting and it's about time I shared it with you.

You may remember one or more of Niranjana and Bing's cloud based apps for KDP publishers. I personally am a big fan of those.

Well the team has outdone themselves once again.

Look I understand it's a BOLD statement to say so, especially given that their last few products are being used by more than 10,000+ KDP publishers world wide, but trust me on this.

Their latest project is stretching the envelope and helping you get into the uncharted territory of sight words activity books.

The reason why I am super excited about this product is because it is a first to market product and solves a massive problem that I haven't seen any other app out there solve.

**Sight Word Search Puzzles Generator [YOUR AFFILIATE LINK HERE]** goes LIVE on 23rd May 2025, at 11 AM EST and I can tell you from what I have seen over the past week...this will change the way you create language learning books.

I will be sending you an email tomorrow getting you the details of the product and what you can expect.

As of now, all I can say is this is *THE PERFECT ADDITION* to your KDP resources that you didn't know you have been waiting for.

Watch out for my emails over the next few days for further details.

>>> While you wait for my emails check out the teaser video here to learn more about the app **[YOUR AFFILIATE LINK HERE]**

Going LIVE Tomorrow...  
SWWG Launching at 11 AM EST Tomorrow...  
[SWWG] Here's What You Need To Know!

### Body:

Hey,

I hope you have had a chance to check out my previous emails about the SWWG app.

The app goes LIVE tomorrow at 11 AM EST.

Not sure if you have heard all the buzz surrounding this app launch, but I can tell you based on what I have seen this is going to be a true game changer for a number of my customers that get in on this.

It solves a real problem for KDP publishers...especially indie publishers.

You will be able to **create high quality sight words activity books** [\[YOUR AFFILIATE LINK HERE\]](#) in a matter of minutes.

Niranjan and Bings have produced some of the finest software in the KDP niche and are known to support their products and customers, so I recommend everyone in my community to check this new app the team has created.

The offer goes LIVE at 11 AM EST tomorrow.

There are four parts to the funnel...one base front end offer, followed by three upgrades.

The front end gives you the ability to create top quality sight words using the custom font and automation that you get access to as a part of your purchase.

The first upgrade consists of advanced features like unlimited downloads, uploading your own images and fonts, access to complex modules that allow use of multiple sight words in single sentences and a whole lot of other pro features.

The second upgrade is where you can tap into the stuff that even big publishers would be afraid of tackling with no less than 50+ artisan page layouts built on 10+ brand new activity based sight words apps.

And one of my personal favorites is the third upgrade, where you get access to 500+ icons and 500+ illustrations that you

can use with the app and even as coloring pages in your activity books.

It goes LIVE at 11 AM EST, tomorrow...so watch out for an email from me around that time.

Hey,

The fastest way to create high quality premium sight words books has just been released and you can get it during the launch at a special discounted price if you act now.

>>> [Check out Sight Words Worksheets Generator here](#)  
[YOUR AFFILIATE LINK]

This is one of the most advanced sight words book creation applications out there, if at all there is any competitor to this.

This is brought to you by Niranjana and Bings, two KDP publishers and software developers who have a track record of creating some very popular utility tools for the KDP community.

They have decided to open it up to the public for a limited time at this discounted price and literally are giving away the secret sauce of their publishing business.

You can create stunning sight words books that look like they were created by a premiere publishing house.

These language activity books are highly customizable right inside of the app and you really can cut down your production process by a lot of man hours.

There is a catch though!

The current launch special price is applicable for an extremely limited time!

Quality over Quantity - What does that mean?

**Body:**

Hey,

I am sure if you have been around in the KDP space for more than a week then you have come across the phrase...

Quality over Quantity!

Well, you have heard it because it's more important now than ever before for Amazon KDP publishers who want real long term business success.

Gone are the days when you could throw together a quick book and get tons of sales on the marketplace.

You need premium quality interiors that deliver an amazing experience to your users.

>>> That's exactly what the Sight Words Worksheets Generator app does for you in a niche that is difficult to create content in [YOUR AFFILIATE LINK]

It gives you the ability to create stunning sight words book pages in a matter of minutes.

And the thing is the quality is built right into the application!

With a little bit of creativity you can push the envelope even further and create content that gives the big publishing houses a run for their money.

Quality over quantity is a thing of the past I would say!

The new mantra is quality with quantity!

Does that sound cool?

Here's WHY Most People FAIL with KDP!

**Body:**

Hey,

Over the last few days I've been sending you some emails regarding this brand new sight words books creation app.

>>> Please go here to check out Sight Words Worksheets Generator in case you have not seen it already [YOUR AFFILIATE LINK]

Do you know why most people fail in their KDP business?

Because...

brace yourself for it...

*They NEVER get started!*

No kidding, that's the biggest problem of all when it comes to Amazon KDP.

There are a multitude of reasons for that and many are valid.

Point in case it can take a good couple months to create just one sight word book consisting of 100 pages if you do not have the right tools.

And a week or two more to organize the manuscript to ensure there are no mistakes.

That can kill one's enthusiasm for sure, especially when you are looking at a business model where each book is a hit or a miss.

Spending that much time may or may not workout in the overall scheme of things.

The business model needs you to publish a lot of high quality sight word books on the platform to be able to make a substantial passive income from it.

You just cannot expect to retire on a beach with 3 books uploaded.

Thankfully **Sight Words Worksheets Generator** solves those problems and some therefore allowing you to get started in the niche with confidence and more importantly without sacrificing your time.

What are you waiting for?

Put your KDP puzzle books publishing on steroids.

[SWWG App] Funnel Explained!

**Body:**

Hey,

Many of you have been wondering about the upgrades included in the Sight Words Worksheets Generator offer!

In this email, I will explain the entire funnel so you have a clear idea of what you are getting and at what price.

>>> But before we get to that check out the front end sales page here [YOUR AFFILIATE LINK]

Now coming back to the funnel, let's start with the front end offer...

### **FE:**

This is the front end product where you get the ability to create coloring sight words worksheets on the fly. There are a lot of bells and whistles in here that have no precedence in the low content publishing space. This product is priced at \$47 during this launch special period. You get 10+ high quality page layouts that have been programmed for maximum efficiency. After the launch the price will go up to \$147.

### **PRO (OTO1):**

This is where you get a ton of advanced features that take your puzzles book creation work to a whole new level. Some of the notable features include image uploading capability, unlimited downloads, ability to upload your own font, access to custom fonts created by us, download the files in the PPTX format and so much more. Listing all the features here would not do justice to them. So check out the sales pages when you go through the funnel. It's priced at \$67 during these limited time launch period. After the launch ends the price will go up to \$147.

## **PREMIUM (OTO2):**

This is where you get 50X more value in the form of premium features. You will get access to 50+ artisan grade page layout designs that you can import and work with in just one click. These are powered by more than ten high end activity based sight words apps that we have been working on for the last year or so. This upgrade will be priced at \$197 during the short three and a half day launch period. Once the launch ends the price will go up to \$497.

## **ELITE (OTO3):**

The third upgrade gives you access to 500+ icons and 500+ illustrations for a one time payment of \$67. Once the launch ends you'll be able to purchase this for \$97.

Overall this is a world class software that is built by real KDP publishers for their own use.

And now, you have your opportunity to get the app for a small fraction of what it's actually worth.

Hey,

I am loving some of the feedback early users are providing about the [Sight Words Worksheets Generator \[Your Affiliate Link Here\]](#) app.

The launch is closing tomorrow at midnight EST, and I wanted to make sure you did not face the problem that I am hearing about from others.

Some customers purchased just the front end offer and were moved out of the funnel so they never got to see the upgrades.

And then there are others who saw the upgrade offers but as they are new to Niranjana and his team they just ignored it and moved on without purchasing.

Whatever be the reason, many of my customers are coming back to me to get help with the upgrade purchases through my link after seeing the quality of the front end product.

W+ does not provide us with links for the upgrades, but I discussed this with Niranjana and he assured me it's possible for you to get the upgrades through my link.

I now understand the steps involved!

Given the time sensitive nature of the offer, I am willing to work with you and help you out with the purchase of any upgrades you might have missed out on.

I do not want you to lose out on the introductory price which is increasing significantly after tonight midnight EST.

Hey,

You may have heard about all the hype surrounding the **Sight Words Worksheets Generator app [YOUR AFFILIATE LINK]** app.

The app actually deserves every bit of attention it is getting simply because it solves a problem for us KDP publishers in a way that has no precedence.

The launch special offer is closing at midnight EST tonight!

That's only a few hours from now.

Once the launch closes the price of the product across the funnel will go up.

The front end product is currently available at \$47, and in a few short hours from now the price will change to \$147.

The first upgrade offer is currently available for \$67, the price will increase to \$147 after the launch closes.

The second upgrade during this launch special offer costs \$197 right now and the offer will increase to \$497 after the launch ends in a few hours.

The third upgrade currently priced at \$67 will cost you \$97 if you pick those up after the launch is over.

Secure 497 additional value now...  
You'll pay more for less...

**Body:**

Hey,

I've been telling you about the **Sight Words Worksheets Generator** [\[YOUR AFFILIATE LINK\]](#) by Niranjana for a few days now.

The good news is you can get it right now at a massive discount of \$500.

The bad news is this changes in a few hours from now.

Because when the launch closes at midnight EST the cost of the funnel would go back to the regular price of \$888 instead of the discounted deal of \$378.

But then if you get this after the launch you won't just pay more...

You'd actually end up paying 2.3X more for lesser value.

Let me explain...

Right now if you get the entire funnel, it would cost you \$378.

And if you do get the entire funnel then you qualify for the value added bonuses that Niranjana is giving away which is...

- 50 more premium page layouts
- A brand new software activity app powering the sight words page layouts

The page layouts are worth the value of OTO2 and then you get the additional software involved.

Just this would cost you \$497 after launch because that's the price of OTO2 once the launch ends.

But from what I understand Niranjana won't be selling these additional value add content and will simply restrict it to the full funnel buyers for the time being.

Do you see how you get 2X value right now for a massive discount?

Hey,

After the special value added content was announced for the full funnel buyers of the **SWWG app** [\[YOUR AFFILIATE LINK\]](#) there was a lot of excitement in my tribe.

I believe the creators of SWWG have officially gone mad to be offering such a deal.

If you do get the entire funnel through my link before the launch closes then you qualify for the value added bonuses that Niranjan is giving away which is...

- 50 more premium page layouts

This is \$497 value at post launch price.

So I wanted to take a moment to answer it for you in this email.

- May be you saw an upgrade but thought it wasn't for you until you came across this latest value added bonuses announcement by the creators for which you would have to buy the full funnel before the launch end to qualify

- Or maybe you are new to the creators products and wanted to check out the front end offer quality first before making a decision and now it's time to make it

Whatever your reason...

If you need help with the direct link to the upgrade pages, then reach out to me via email or fb messenger and I will help you out with the process.
