

I am against the genocide that's occurring in Palestine. I am also against the genocides in Sudan and Ukraine. I am against oppression, holding people captive, and killing and injuring others. I am also against antisemitism. I do not believe that being against genocide and wanting Palestinians to be free is antisemitic. Participate in not supporting companies who support genocide where you can. Like, share and comment on videos that bring attention to the genocide and examine who you vote for. Do what aligns with you on and off this app, we need all of it. I also believe that people of the global majority in America are experiencing more harm than white Americans. And the LGBTQIA2S+ community is experiencing more harm than the cis community. I am fearful of what has happened with the Supreme Court and continue to be fearful of what will happen to the Supreme Court with our upcoming election.

Thank you,
Molly
