Caches:

●

Hosted CEs

● Declared transitioning CEs to new job router syntax finished. Have a few lingering dead CEs to decommission (work in progress)

GWMS Factory

● Need to invite other VO frontends to connect to k8s factories
    ○ Fixed FNAL FE registration
● Working on reinstating some old queue cleanup scripts to clear out stale glideins, k8s factory is suffering from too many glideins left in X state on condor queues
