influence?

Title: using NICE recommendations in MVP

Facilitator: Catherine Williams

Not able to attend the session today? Please share any questions or information here:

Record of the session (notes, photos, links to video, actions agreed, etc): It was great to spend time reflecting on the work of NICE (inc its purpose and how the work of NICE gets produced) and how MVPs can use NICE outputs to their advantage to drive up quality in their local areas. Group agreed that it would be great to offer all service user MVP members a '101 to NICE' based on today's information sharing session. Jo Dagustun agreed to write a 2 page draft NatMatVoices document for others present to comment on, to include a brief background (what is NICE/ why does it exist), how to find NICE resources (including Quality Standards), how to use them, what to do if you are not happy with what NICE says on any given issue etc. We'll also reference the work Twins Trust has done (v successfully) on using NICE recs and Quality Standard to improve quality of care locally. Please feel free to get in touch with Jo if you have ideas on what this note needs to cover to be helpful to YOU! jdagustun@hotmail.com
