

Fence Removal in Fairfax VA – Project Breakdown

We recently completed a full fence removal project in the heart of Fairfax, Virginia. Our client needed a fast, clean, and professional solution to remove an aging wooden fence that ran 202 feet across their backyard. The job also involved digging out and hauling away 32 fence posts, most of which were set deep in concrete. Our team at Wee Haul Junk Removal showed up on time and completed the entire removal in a single day.

Check out a quick time-lapse of this fence removal project on YouTube:

Fence removal isn't just about tearing down panels. It takes the right equipment, trained crew, and a solid cleanup process to leave your yard ready for what's next — whether that's a new fence, landscaping, or just open space. At Wee Haul, we take pride in handling every part of the job, from hauling off the debris to removing concrete-set posts with care.
