

The Bull Moose Party

My fellow Americans, for too long our country has been plagued by disinterested politicians using your vote to enhance their own power. For too long, demagogues have hijacked our political process to feed their egos and secure themselves as tyrants. For too long, the average American has suffered, while the Government has done nothing to help. We have had enough.

The Bull Moose Party has formed from a group of many people with many different backgrounds and ideas, with one goal in mind: We want change. We have come together to fight tooth and nail to break the monopolies of power that prevent the average American from reaching success.

The Bull Moose Party has been founded on the belief that Americans want to succeed. It is our mission as a party to provide every opportunity for all Americans to achieve success, regardless of their wealth, race, gender identity, sexual orientation, or religious background.

Many parties have come and gone in the long history of our nation, but that truth only steels our resolve. We will fight to continue the work of activists and reformers of the past, and to create a better tomorrow for all Americans.

Commander_Johnsonson, Bull Moose Press Secretary
