

Name: Vanessa Gomez

Daily Lesson Plan

Lesson Title: Fantasy Character Day - 4

Grade Level: High School

Sequence and Scope Statements:

Students will continue working on their digital sculpture project.

Concept and Skills:

Students will continue creating in the Sculptfab website.

Academic Language:

- Form
- Space

Purpose of Lesson:

Students will finish creating their fantasy character head using the site Sculptfab.

Learning Objectives:

Given a presentation on digital sculpture and fantasy characters as well as the Sculptfab site students will finish creating their digital sculpture project that successfully demonstrates 3D form on a digital plane of their personal fantasy character designs.

Assessment Criteria:

Technical Skill – Sculpting

Formal Quality – Form, Space

Conceptual Complexity – Personal character

Teaching Resources Needed to Support the Lesson:

reedhoucek, James Doyle

Art Materials Necessary for the Lesson:

Sculptfab, computer

Planning for Differentiation:

Students who finish early will be encouraged to build a story for their character (name, background, etc.) or to attempt design and creation of a body. Students who do not

finish the project will be allowed to finish it outside of class if they so choose.

Teacher Directed Activities:	Student Activities:
Introduction: I will show them another few examples of fantasy characters and head designs. • What features make these characters a part of the fantasy genre?	Introduction: Students will be given the majority of the class period to finish their projects. They can get started right away after the presentation.
Development: Students will finish creating their fantasy character heads today. • How is it going with your character creation?	Development: Students will use the Sculptfab site to finish their projects. This is the time to add any defining features or extra details as well.
Conclusion: This is the final studio day to work on the project. Students will be asked to save their work and then turn it in digitally. • How was it using the Sculptfab website? • Was the interface easy or hard to use?	Conclusion: Final projects will be turned in today if completed. If not done, they will have to be completed outside of class and turned in before the next meeting time.

Critical Comments and Reflections:
