Fighter · Martial Archetype · Psychokinesis

Character Sheet · v3.4

Quick Reference

Psionic Ability: Intelligence, Wisdom, or Charisma (chosen at 3rd level)

Save DC = 8 + Proficiency Bonus + Psionic Ability modifier

Psi Points = $\lceil \text{Fighter level} \div 2 \rceil + \text{Proficiency Bonus}$. Regain all on short/long rest.

Manifested Strike: Magical ranged attack (60 ft), force damage, +Psionic Ability mod to damage. Replaces any weapon attacks.

Psionic Instinct: First Manifested Strike hit each Attack action triggers your 3rd-level T0 rider for 0 Psi.

Blood Tax Formula (hit only): $(T1 \times PB) + (T2 \times 3 \times PB)$. Self-damage bypasses THP, cannot be reduced.

01 OVERLOAD

The Blood Tax

Tier 1 Overload (3rd level): Increase MS die by one step. Add PB to damage. On hit: BT = PB.

Tier 2 Overload (11th level): Increase MS die by two steps total. Add 2×PB to damage total. On hit: BT = 3×PB (includes T1).

Declare full package before the roll: MS + one rider + all Overloads. Hit: everything resolves, full Blood Tax. Miss: Psi spent, no effects, no Blood Tax.

One rider per hit. MS Overload and rider Overload are independent — Overload one, the other, both, or neither.

03 ADVANCED TRAINING

Deflection Screen 5th Level · 1 Psi · Reaction · Once per Round

T0: When you take damage, spend 1 Psi to reduce it by 1d10 + Psionic Ability modifier.

T1: Reduction increases to 1d10 + Psionic Ability modifier + Proficiency Bonus.

T2: Attacker makes a Str save: fail = pushed 15 ft + Prone; success = pushed 5 ft.

T0: Teleport up to 15 ft to an unoccupied space you can see. No opportunity attacks.

T1: Teleport up to 30 ft instead.

T2: Bring one willing creature within 5 ft. Both appear at destination (you) and adjacent space (them).

Advanced Training III (15th) and IV (20th): Choose 2 of 3. Swappable on level-up. You cannot hold the same feature across both slots.

Mind Crush High Tier · 3 Psi · On MS Hit · Once per Attack Action

T0: Target makes an Int save or loses the ability to take reactions until end of your next turn.

T1: On failed save, target is also Incapacitated until end of your next turn.

T2: Target is Stunned instead of Incapacitated on a failed save.

Dazzle High Tier · 3 Psi · Action

T0: Choose a creature within 60 ft that you can see. Target makes a Wis save or is Charmed by you until end of your next turn.

T1: On failed save, target is Blinded instead of Charmed until end of your next turn.

T2: On failed save, target is Incapacitated instead of Blinded until end of your next turn.

Burst High Tier · 3 Psi · On MS Hit · Once per Attack Action

T1: Radius increases to 20 ft.

T2: Creatures that fail are also knocked Prone and pushed 10 ft away from the target.

PSYCHOKINESIS

Tactical Space Control · Force damage

A repositioning specialist that dictates where enemies stand — controlling entry points, collapsing formations, and punishing poor positioning. Force is the least-resisted damage type in the game.

Telekinetic Shove 3rd · 1 Psi · On MS Hit · Once per Attack Action

T0: Push target 5 ft horizontal (Str save negates). Free once per Attack action via Psionic Instinct.

T1: Push distance increases to 10 ft.

T2: Push distance increases to 15 ft and target is knocked Prone on failed save.

Implosion 7th · 2 Psi · On MS Hit · Once per Attack Action

Piercing Force: Your force damage from subclass features ignores resistance.

T0: Telekinetic implosion on the target. All creatures within 15 ft (including target) make Str save or are knocked Prone. Non-targets are pulled 15 ft toward the target.

T1: Pull distance increases to 30 ft.

T2: Creatures that fail also take force damage equal to Psionic Ability modifier.

Combo: Shove on hit 1 to position the target, Implosion on hit 2 to collapse the cluster.

Vectored Thrust 10th · 2 Psi · Bonus Action · Concentration, up to 10 min

T0: Hover speed equal to walking speed (no more than 1 ft off ground — ignores difficult terrain, not true flight).

T1: Full fly speed equal to walking speed. Ends if incapacitated. Standalone: BT on activation (no roll).

T2: Flight does not provoke opportunity attacks.

Force Supremacy 10th · Passive

Resistance: You gain resistance to force damage.

Bonus Damage: Once per turn, when you hit with MS, deal bonus force damage equal to PB.

Ribbon: Minor telekinesis at will — manipulate objects up to 10 lb within 30 ft (invisible Mage Hand, no concentration).

Overload (declare before first MS roll this turn):

T1: Bonus Damage applies to all hits during the Attack action, not just one.

T2: Each target of the Bonus Damage must make a Str save or be pushed 5 ft horizontal. Stacks with Telekinetic Shove.

Mass Levitation 15th · 4 Psi · Action · Concentration, up to 1 min

T0: Choose up to 3 Medium or smaller creatures (or 1 Large) within 60 ft. Str save or lifted 20 ft and Restrained (hovering). Repeat save at start of each turn; success = safe descent. Concentration ends = fall.

While Levitated: Target takes bonus force damage = Psionic Ability modifier the first time each turn it is hit by your MS.

T1: Creatures that fail the initial Str save must also Con save or become Incapacitated for the duration.

T2: Creatures that fail take force damage = Psionic Ability modifier at the start of each of their turns while levitated.

Telekinetic Slam 18th · 4 Psi · Action

T0: Target within 60 ft takes 8d10 force damage (Str save for half).

T1: +2d10 damage. On failed save, target is Stunned until end of your next turn.

T2: On failed save, target is Stunned (T1), lifted 15 ft and slammed — Prone + Psionic Ability modifier force damage. Prone persists after Stun ends.
