

I am reading “Leaders of Learners”. A great book and I highly recommend it. In the book the authors discuss that school administrators while needing to be flexible also have to have what they call a “Non Negotiable List”, things that they will not be flexible on. It got me thinking what would be on my list.

Please share your thoughts about what would be on your Non Negotiable Lists: Please put your Twitter name after your ideas- Thank you

- Putting the needs of the Students first (akevy613)
- Improving and ensuring Student learning and growth must be a priority (akevy613)
- Decisions should be based on what is best for students. (akevy613)

You must exhibit the traits of learner, first and foremost. Never stop being willing to learn.

Maintain the philosophy that we will treat every student as if they were our own: @northeagles

Decisions should be based on what is best for students. @supsingh

Our classrooms and schools must be places where we would want our own children to be. If not, why is ok for other children? @supsingh
