Español todos los días.

So far throughout this course, you have used many different resources and strategies to help you increase your skills (shadowing, chatbots, talking to pets, translating recipes, etc.). You have also used resources for grammar, pronunciation, etc. such as SpanishDict, StudySpanish.com and more. In this project, you will continue implementing resources and strategies to learn Spanish.

The days do not have to be in a row but must total to at least FIVE days within the assignment/project timeframe of one week for at least 15 minutes each day.

To help you keep track, each day, you will fill out one row for the table below. The table below is part of what you will turn in as your assignment submission. You will also answer a set of questions which you will find below the table.

Note: Although you will receive credit for 5 days and the questions, please do not limit yourself to only 5 days!

You cannot use the same strategy, resource, tool more than once. For instance, if you use Duolingo one day, you cannot use it another day, even if the lessons are different. Module assignments DO NOT count for this project! You must use different tasks, resources, etc. on your own to demonstrate you are learning Spanish on your own.* *Please do not use assignments from the Modules/Weeks - these activities must be in ADDITION to what you regularly complete for class.

Some ideas to get you started: Duolingo, News in Slow Spanish, Lyrics Training, Quizlet, BBC Mundo, Coffee Break Spanish, FreeRice, Busuu, Rockalingua

Table to fill out:

Nombre del estudiante: TYPE YOUR NAME HERE!
REMINDER: You must use a different resource each day for 5 days (the days do not have to be consecutive)

Date	Time Start	Time End	Resource or strategy used	Type of content (conversation, basic vocab, grammar, etc.)	Fun? *(yes/no)*	Simple to use? *(yes/no)*	Did it help you learn? *(yes/no)*	Proof of Practice (screenshot, video, audio, etc.)

Questions

1. Were you able to complete the assignment within the allotted time frame? If not, why?
2. Which of the resources or strategies you tried were new to you? Which ones had you attempted before?
3. Which of the resources or strategies you tried was your favorite? Why?
4. Which of the resources or strategies you tried was your least favorite? Why?
5. Which of the resources or strategies will you commit to using regularly to help you increase your Spanish skills?

BONUS! (Optional)

To get inspired to learn ANYTHING, watch this informative and fun TedxTalk video titled *The first 20 hours -- how to learn anything by Josh Kaufman* which will showcase HOW to set-up to learn in the most efficient way possible.

Based on the video, list the most surprising and/or useful things you learned about learning. Also, share how/if the video inspired you to make adjustments to how you learn or changed your attitudes about learning.
