Prices / commission types

Patreon supporters get discounted for contributions:

5% at $5 tier.
12% off after $10+ tiers

Sfw and nsfw unclothed are the same price unless it requires an additional alt or couple explicit interaction.

Anonymous males or male OCs, charges will occur. However, if the character's just a minimal addition, while explicit, (i.e: only bottom half shown) there will be no additional character charge, just an explicit alt fee. If the male character's presence is minimal, such as when his face or half/most of the body isn't visible it will cost the same as a solo piece.

Payment must be made first before work on the commission begins, and I will not provide any sketches until then.

- A discount is offered if you get art with my Fursona/Character (please discuss this with me first!)
- If you choose to get art with my fursona, a discussion is required. (Because there are some limitations)

Work Process

- The working period for the commission occurs after the payment is processed.

- Please provide all necessary information, including the commission type, reference image of the character, theme, clothing, poses etc.

- To ensure important details are not overlooked, please include significant features/details of your character when placing your commission order. (a short description is more than sufficient, no paragraphs necessary)

- **The PROCESS:**
- Give me reference materials (+ order options that you need to add)
- rough grayscale sketch > coloring and finished work

- Once all necessary details are confirmed after discussion,I will calculate the final price and begin working upon receiving payment.

- Upon completing the artwork, I will provide you with a Google Drive or Mega link containing the full PNG file and reduced PNG files.

- When I show you the initial WIP sketch, feel free to give feedback and request changes without any extra charges. Please be aware my WIPS are messy. Also, keep in mind that you can only ask for changes twice during this sketch phase that isn't related to missing ref sheet detail or anatomy issues. Please take a close look at the work in progress before approval.

- Provide all order details and refs at once and in a clear manner.
  Kindly refrain from requesting additional details, especially if the ref sheet is not updated or out of date. I prefer you have an up to date ref sheet or reference image. Be aware that making additional requests past the limits

during the working process disrupts my progress and may incur additional fees.

NO REFUNDS AFTER ART IS COMPLETED

This shouldn't have to be said, but blacklisting will occur if a chargeback happens unprompted without discussion. You can request a refund if I take longer than 4.5-5 months to get to your work. Let’s discuss it if you need a refund!
