Note: Jakartees are welcomed to add topics to agenda. Add [your name] as the agenda item creator, <u>using</u> the format below. Items lacking her/his identified creator WON'T be covered.

May 8th, 2019 [8-9am PDT Zoom Video Call]

GLOSSARIES:
+ 60 Jakartees plus fun pics, find yourself! :)
+ Two Slide Presentations: Eclipse Foundation & David Blevins
+ Video Zoom recorded: https://youtu.be/bCK3kRiYz-o
+ [Zoom chat minutes](#) public conversation
+ Doodle Call [feedback poll](#) [your opinion matters: 5 questions. Survey ends 5/22/19**]**

<u>Attendees</u>   [*each attendee* OUGHT to *add her/himself*]
- [Paul White](#)/ call-facilitator [Eclipse Foundation]
- [Amelia](#) / call-facilitator [Tomitribe]
- Stephanie Swart [Eclipse Foundation]
- Jan Westerkamp [iJUG]
- Edwin Derks (Ordina)
- Mark Struberg
- André Sept [iJUG]
- Richard Monson-Haefel (Tomitribe)
- Sendil Kumar
- John Clingan (Red Hat)
- Mark Little (Red Hat)
- Scott Marlow (Red Hat)
- Josh Juneau (Individual)
- Martin Stefanko (Red Hat)
- Cesar Hernandez (Tomitribe)
- Nathan Erwin (IndyJUG / E-gineering)
- Ed Bratt (Oracle)
- Tobias Frech (iJUG)
- Bernhard Findeiss (JUG Oberland)
- Dmitry Kornilov (Oracle)
- Scott Stark (Red Hat)
- Kevin Sutter (IBM)
- Ken Finnigan (Red Hat)
- Alessio Soldano (Red Hat)
- Walid Garbaya (Freelance)
- [Jorge Cajas](#) (GuateJUG)
- Ivar Grimstad
- Andrii Malytskyi (Tomitribe)

- Akihiro Nishikawa (Microsoft)
- Alberto Salazar (Ecuador JUG)
- Alberto Mancini (K-Teq)
- Francesca Tosi (K-Teq)
- Kenji Kazumura (Fujitsu)
- Martijn Verburg (London Java Community / jClarity)
- Paul Buck (Eclipse Foundation)
- Wayne Beaton (Eclipse Foundation)
- David Blevins (Tomitribe)
- Kleber Ayala (EcuadorJUG)
- Will Lyons (Oracle)
- Hieu Lam
- Mauricio Coria
- Tanja Obradovic (Eclipse Foundation)

Agenda /Discussion: [everyone in attendance is welcomed to HELP the write-up]

- **[Eclipse Update]** Paul White
- ➔ What is the status on the Jakarta EE rights to `javax` package namespace and Java Trademarks? 5/3/19 blog by Mike Milinkkovich. {tweet post} Eclipse Foundation Director, quote: "*Eclipse and Oracle have agreed that the `javax` package namespace cannot be evolved by the Jakarta EE community. As well, Java trademarks such as the existing specification names cannot be used by Jakarta EE specifications.*"

Mike presented a few slides, 5.5 minutes and open the call for Q&A on Trademark topic.
Q: Can you tell us a bit more in detail why the conversations lead to such result?

- ➔ For Community Consumption: Jakarta EE Strategic Members' Blogs:
  - Oracle via Will Lyons {tweet post}
  - RedHat via Mark Little {tweet post}
  - Payara via Steve Millidge {tweet post}
  - IBM Developer via Ian Robinson & Kevin Sutter {tweet post}
  - Fujitsu Community via Kenji Kazumura {tweet post}
  - Tomitribe via David Blevins {tweet post}

- **[Specification Committee Update]** David Blevins
- ➔ A presentation about Transitioning Jakarta EE to the Jakarta namespace via two(2) proposals. Written update sent on May 6th at 4:23 pm PDT to the jakartaee-platform-dev@eclipse.org forum. Dev- THREAD contains Proposal 1) Big -bang Jakarta EE 9 and Jakarta EE 10 **AND** Proposal 2) Incremental Change in Jakarta EE 9 and beyond.
- ➔ Community discussion on how to transition to the `jakarta` namespace will conclude **Sunday, June 9th, 2019** via the Dev forum.

➔Call to Action for Jakartees:

1. Subscribe and contribute to the Dev list: [Forum [Join the Conversation via the Dev List]](#)

2. **[Ivar]** recommended thread: **Please** read the CONTRIBUTING file (https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/CONTRIBUTING.adoc) before submitting PRs
You don't have to be a committer. **BUT** you still need to sign the ECA as described in CONTRIBUTING.adoc.
Excerpt here:
Before your contribution can be accepted by the project team contributors must electronically sign the Eclipse Contributor Agreement (ECA).
   ● http://www.eclipse.org/legal/ECA.php
Commits that are provided by non-committers must have a Signed-off-by field in the footer indicating that the author is aware of the terms by which the contribution has been provided to the project. The non-committer must additionally have an Eclipse Foundation account and must have a signed Eclipse Contributor Agreement (ECA) on file.

3. **[David]** created the Spec **Repo making it ready for your Contributions:** kick start something a bit wiki-like that can be updated via PRs.

   On proposals: *if you image a variant that is more specific or slightly different that the two above, definitely submit it.*

   ● https://github.com/eclipse-ee4j/jakartaee-platform/tree/master/namespace

   Things that need doing:

   ● A full audit of each spec's "other" javax usage (PRs welcome!!)

   https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/namespace/other-javax-references.adoc

   ● A list of each spec jar and its full transitive dependencies:

https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/namespace/transitive-dependencies.adoc

- A careful eye to review this informational list of "not affected" namespaces

https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/namespace/unaffected-packages.adoc

- You to clean up and submit your uniquely awesome proposal in this format:

https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/namespace/proposal-01-bigbang.adoc

https://github.com/eclipse-ee4j/jakartaee-platform/blob/master/namespace/proposal-02-incremental.adoc

---

Parking Lot Updates:

Recommended for Community Asynchronous Consumption:

- **[Specification Committee Update]** Independent consumption
➔ What is the Jakarta EE github project status?
   Three [3] Projects: Jakarta EE 8, Jakarta EE 9 and RoadMap. 11 issues
   1. Read more > Blog Update written by Ivar Grimstad [PMC Chair]

- **[Marketing Committee Update]** Independent consumption
   ➔ [Amelia] the Social Media post dated 6/26/18 First Blog Post **maintains** that the EF team controls & manages 100% of the Jakarta EE media outlets: Twitter, FB, etc

- **[Eclipse Foundation Community involvement update]** InDependent consumption
➔   EF Team on How to Participate: #ITisEASY

1. [Tanja/Paul] Explain the Blog guidelines and how to submit Jakarta EE content Blogs/Videos/Sessions via the Jakarta Repo: git issues.
2. [Jakarta Tech Talks] What about them?
3. [Events Calendar] What is its value of importing it and keeping it in mind?
4. [Thabang] Quick overview on what to expect (1 day) before the Survey press release and unveiling.
