

Customizing your Google Site (Part 1)

Adding new pages

Once your Site has been set up, you'll want to add pages to divide up the material in your Site. In order to create new pages, follow these steps:

1.) From your Sites homepage, click on the "Create Page" button  near the top right corner.

2.) Name your new page by filling in the box.

Name your page:

Your page URL: /a/sjbschool.org/sjb-technology-training/ [change URL](#)

3.) Click the  button.

4.) Your new page will appear in the sidebar.
