UPDATES

US Department of Education Releases Climate Adaptation Plan

On September 15th, the Department of Education posted its 2021 Climate Adaptation Plan (see blog). This is great progress, and the COE's Green Schools Working Group this Spring will support our districts to continue working to be at the leading edge. There is an opportunity here for education leaders to provide feedback to the Dept of Ed by September 22 on the plan. Here are three highlights from the plan:

- This latest Climate Adaptation Plan names Cindy Marten, Deputy Secretary for the Department of Education, to lead implementation of this plan.
- The plan acknowledges that climate change is no longer a theoretical threat to the department's mission, but rather a present and grave one.
- The department commits to a powerful set of actions that, if effectively implemented with urgency, will put the Department of Education on a path of strong climate leadership.

Education leaders can help the Department move forward by engaging in a survey. Read the plan (the description of the "priority actions", which represent the core of implementation, starts on page 8) and provide your thoughts on how the Department can work effectively in these priority areas by completing this survey. **Most questions are optional and the survey is structured to accommodate those respondents who only have 5 min as well as those who can provide more extensive thoughts. The survey can be shared with others.** Feedback submitted by WEDNESDAY, SEPTEMBER 22 will be shared with members of the Department during the week of September 27.

WEBINAR: Thriving Schools Using Outdoor and Environmental Learning: A Roadmap for the Use of ESSER Funds

Thursday, September 30, 1:00PM EST/10:00AM PT. Learn how federal, state, and local school administrators and educators about how they are using a portion of their COVID relief funds to help students and teachers learn (and thrive) outside. Presenters will discuss the benefits of environmental and outdoor learning on student success and well-being, and share practical examples from the schools and districts they represent. Register here.

EVENT INFORMATION

COLLEGE AND CAREER

College and Career Month - October

College and Career Week has grown to College and Career Month! Cabrillo College will offer multiple weeks of programming focused on different topics. This week of Cabrillo Chats will include financial aid, transfer support, pathway choice and college life balance. UCs and CSUs will kick off the month with their college days and transfer nights. Schools and districts can use this time to build their college going culture by having students engage in virtual college tours and scavenger hunts, holding FAFSA workshops, having students work on college essays in ELA classes, and engage in career exploration activities. For resources and activity examples for elementary, middle, and high school, visit the S5C website.

LEARN MORE

Important Date Change!
The 4th Grade Cabrillo College Experience - will now be held on 10/14 9:30 - 10:00. Please note this change. Announcements will be sent soon.

Mark your calendars! The 4th Grade Cabrillo College Experience will be on October 14th at 9:30. Students from across the county will be able to "zoom in" to learn more about postsecondary education pathways and to hear from college students. More information and interactive curriculum to come!

Santa Cruz School Counselor Curriculum Handbook

Audience: All counselors

Counselors in Santa Cruz County have been working together for over a year to develop a curriculum handbook. This handbook has now launched as a Google Site. On this site you will find grade specific **core curriculum suggestions** along with **ready to go lessons and materials** counselors can use at their site. Individuals can use the feedback form to submit new materials.

Santa Cruz School Counselor Network 21-22

Audience: All counselors

This year S5C will convene a Countywide Counselor Network. The group is voluntary and will convene bi-monthly with options for middle school and high school to meet together and/or separately. Topics will be based on counselor feedback and requests. Each session will include opportunities to learn from colleagues and topic experts.

The first session topic will be - Creating More Inclusive Spaces in Schools for LGBTQ+ Students. Subsequent sessions will be based on counselor requests, needs, and feedback. Register here

Look for more information this fall! Contact Cristine Chopra with any questions. cchopra@santacruzcoe.org.

Sessions will be held from 9:00 - 10:30 on 9/22, 11/17, 1/19, 3/23, & 5/18.

REGISTER

Santa Cruz County Reading Association Book Club

Audience: Teachers, instructional coaches, reading specialists and intervention teachers

The Santa Cruz County Reading Association is the local chapter of the California Reading Association. This year the book club will read and discuss *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom.* Meetings are led by local elementary teachers and will be virtual. First meeting on September 30, 3-4:30. Units available for purchase for participants.

LEARN MORE

Banned Books Week is Sept. 26--Oct. 2

Audience: Teachers, instructional coaches, reading specialists, librarians

Books unite us. Sharing stories important to us means sharing a part of ourselves. Books reach across boundaries and build connections between readers. Censorship, on the other hand, divides us and creates barriers.
This year's Banned Books Week theme draws attention to the benefits of unrestricted reading and the harms of censorship..

The SCCOE is hosting a workshop about curriculum and LGBTQ History Month. Teachers--Join us virtually for a FREE curriculum preview of all of our materials available to you for LGBTQ+ History Month. We will walk you through resources and give ideas for how to use them in your classroom. Register here.

EVENT FLYER

Community Event: Environmental Justice in Santa Cruz County

SEPTEMBER 28, 6-8pm on Zoom with Spanish translation
Clean air and water, public parks and beaches, biodiversity and open spaces are shared goods to which every person has an equal right. As institutions that serve all children in a community, schools have an opportunity to create systems for more equitable access to nature and healthy environments for people and the planet. Join us to discuss what environmental justice looks like in Santa Cruz County and how schools can contribute a sustainable future for all. See flyer in English and flyer in Spanish and register at http://sccoe.link/enviro.

EVENT INFORMATION

A Race & Equity Affinity Action Group is a space for teachers to connect, reflect, share and learn from each other on their journey of becoming antiracist educators.

The Santa Cruz County Office of Education and the Santa Cruz/Silicon Valley New Teacher Project are pleased to provide this opportunity for ***all*** **teachers, veteran and new**, across the county, to join in our commitment to:

- Increase equity for all students.
- Develop a community of practice based on culturally responsive and antiracist pedagogy.
- Promote and sustain the leadership of teachers of color.

Please share **THIS** Registration Flyer. Gatherings begin October 5th.

Anti-Racism in the Outdoors Resource Guide

The Joy Trip Project has released **The Anti-Racism in the Outdoor Resource Guide**. Created by Dr. Don Rakow of Cornell University and Laura Brown of the University of Connecticut this annotated bibliography is a detailed list of articles and online content references that explore the complex issues of racial disparities in the equitable access of all people to the outdoors. This new recourse guide will be shared in a free Zoom panel discussion: Everyone's Earth: Conversations on Race and Environment on Thursday September 30th at 9:30am PST. Learn more and register for the panel discussion here.

EVENT INFORMATION

SC/SVNTP Fall Breakfast, Thursday, October 28th 8:00am-10:00am (Virtual)

Suggested Audience: All administrators and teacher leaders.

We would be pleased for you to join us virtually for our annual Fall Breakfast where we will continue to grow as antiracist educators. If you haven't done so already, please **register** today.

EL RISE Elementary ELD Teacher Training Modules 1-2

Audience: teachers, elementary teachers, EL specialists, instructional coaches and leaders

The first two modules of this EL RISE training, facilitated by Sobrato Early Academic Language focus on building culturally and linguistically sustaining classroom communities and strengthening the intellectual challenge of instruction. Practical strategies and tools for implementing Designated and Integrated ELD, connecting with families and honoring language diversity are shared. To quote one participant from last year: "This stuff works!". Participants are invited to also participate in a monthly Community of Practice to support implementation. **First session is Oct. 12.**

LEARN MORE

EL RISE Communities of Practice

Audience: teachers, elementary teachers, dual language teachers, instructional coaches, principals

The COE facilitates two monthly Communities of Practice to support implementation of strategies and tools presented in EL RISE trainings. Both CoP's meet virtually, after-school once a month on Wednesdays. Teachers are invited to share examples of the implementation, review and go deeper on tools and topics selected by the group and to collaborate with each other on implementation next steps. One CoP focuses on implementation in elementary English taught classes and the other focuses on implementation within the context of dual language programs. All past and present EL RISE participants are invited to join.

SCIENCE

Six Free Tools for Teaching about Climate Change--for grades 3-12

As part of the Next Generation Science Standards (NGSS), students need to "ask questions to clarify evidence of the factors that have caused the rise in global temperatures over the past century." Digital resources can support these practices when teaching about climate change:

- Using models to understand the fundamental processes that help shape Earth's climate.
- Arguing the causes of global temperature rise; like scientists, students should be holding those same debates.
- Exploring data to practice interpreting real evidence and arriving at their own conclusions.

Here are six free tools that incorporate those practices and can be used immediately in the classroom to help students become climate change scientists.
