

## Total Nintendo Universe

Host- Sandile

Assistant- Toad

Rules: 100 will sign up as one of 150 available characters. At the start, there will be 5 teams of 20 players. Players on each challenge must complete challenges. After every challenge is an elimination. Winning team(s) are safe at an elimination. Losing team(s) must eliminate 1 or 2 players at an elimination. Players vote players who they want to be eliminated, the player(s) with the most votes get eliminated. Players also get strikes if they don't complete a challenge. If a player gets 3 strikes, they are eliminated. Also, any current strikes will be abolished when a player completes a challenge. Players can also quit if they no longer wish to compete, and if a player closes their account, that player will be eliminated. If a player makes a new account, they must notify me right away. If a player misses more than one challenge, they may not return with a new account. Teams are picked randomly and each team has a captain. Captains are more important in TNU. Normal players usually get \$10 for completing a challenge, \$5 for half-completing it, \$1 for responding but not completing it, and \$0 for not responding at all. However, team captains always gain \$2 extra. (Players can buy passes at the Nintendo Shop with money they receive). So if they don't do a challenge, they will still gain \$2! (Captains do not get strikes if they don't complete a challenge!) Team captains can also trade players! If they want to trade players, both captains must agree and I must have written proof of an agreement. So both captains must send me a message saying they approve of the trade and tell me which two players are being traded. If a captain is eliminated, the person next in line will become captain. There is a downside to being the captain, there is a higher chance you will get voted by players. However, you can buy passes to protect with your huge amount of money, or, once you gain a lot of money, you can step down from being captain and become a normal player. If you don't want to do that, be nice to your teammates and don't act like a dictator! There will be 2 return points in TNU. Players must vote for who they want to return in a 12-1 Point voting system. Each return point will have 5 players return. If a player fails to return at a return point, they will have no more opportunities to return. ~~NO ADD-ONS WILL BE ALLOWED IN THIS CAMP! There are already so many signups an allowing add-ons is just going to make things more complicated.~~ When we are down to 60 players there will be 3 new team of 20. When we are down to 40, there will be 2 teams of 20. Finally, at 20 players, all teams will disband and all players still in the game will enter the merge. There will be a point system from the Final 20, up into the Final 10. Players will gain points by completing challenges and there will be a danger zone. Players in the danger zone will be voted for elimination by players outside of the danger zone. Danger Zone players cannot vote. After every elimination, the danger zone will either expand, or a extra player will have to be eliminated the next time. The Jury starts at the Final 10 and ends at the Final 5. A select number of ex-players will vote for who they want to be eliminated. The Final 5 will complete in challenges in which the player who does the worst is eliminated. The Final 2 will compete in a five-round finale. The player to win the most rounds is the winner of TNU.

Extra Notes: The TPI Blog will be EXTREMELY important for seeing things such as elimination order, current teams, and the Nintendo Shop. All signups must be on my channel. All pass-buying must be sent via messaging!

New Rules: Prices of passes go higher when stock is lower! Prices go lower if a pass is not bought for awhile. If a pass is bought after lowering, price can go back up.
