

SL: Close Encounter.

Hi,

I've been following your profile for a week now and I must say you're doing a great job at the gym.

I also reviewed the results your clients have achieved and I am positively surprised.

I don't know if you are aware of it, but by creating a newsletter you will convince more people to read your E-BOOK and take part in your training plan for PLN 65.

This solution is used by many successful trainers like Anna Lewandowska, and they use it because thanks to it they can motivate people to do more and thus buy their product or use their service.

If you are interested, I will set it up for you and take care of it, so that you don't have to add work, and the sales of your service will increase, which will allow you to develop your brand in the future and add even more profitable offers.

Marketing Consultant,

Kamil Gwóźdź.
