

Module 3 Assessment for Ancient Civilization

This assignment has 3 parts:

- the actual assessment (it can be formative/summative, project-based, competency-based, etc.) **aligned** to your outcomes
- a rubric/key that uses the **language of your students**, but mirrors the language of your outcomes/objectives
- a **web-based platform** that you can administer your assessment on (this could be within your LMS or a third-party tool)

Assessment:

- Students will create a presentation using technology that shows the different characteristics of their civilization. Students will then listen to their peers presentations.
