

Week 1

Week 1 Summer Offerings (June 8th - 12th)		
Kindergarten Readiness- Math Fun (Full Day Kindergarten)	Sorcha Buret and Megan Venturi	Get ready for math fun while getting ready for kindergarten! This engaging program helps students build friendships, practice teamwork, and grow comfortable with kindergarten routines in a fun and supportive environment. Through hands-on math activities, students will spark their imagination, creativity, and confidence. This camp offers the perfect balance of learning and summer fun!
Musical Theatre Camp (Full Day Grades 4-8)	Thaine Sugden Kimberly Lostetter	This dynamic theatre camp invites students in grades 4–8 to build skills in acting, singing, and dancing while collaboratively creating a high-energy Musical revue that showcases every performer. Led by an experienced educator and theatre director, students learn in a supportive environment that values teamwork, confidence, and creative risk-taking. Through ensemble work, rehearsal, and performance, campers strengthen public speaking, collaboration, and emotional expression. The program emphasizes belonging, growth, and joy—onstage and off.
Writing Foundations (Morning Grades 1-2)	Monic Aguilar	Introduces young writers to the foundations of clear and confident writing in a fun, engaging way. Through interactive games, mini-lessons, movement activities, and creative writing challenges, students explore key punctuation and grammar skills—including complete sentences, punctuation marks, nouns, verbs, adjectives, and simple revision strategies. Instruction is hands-on, giving campers frequent opportunities to practice skills through storytelling, partner activities, scavenger hunts, and sentence-building stations. By the end of the week, students will have strengthened their writing fluency, built confidence in their communication skills, and created a small collection of polished writing pieces.
Explore the Piano World With Me! (Morning Grades 1-2)	Lili Cai	This two-week session offers a deeper introduction to music and piano, combining fun games with foundational skills. In Week 1, students learn rhythm, solfège singing, basic note reading, and listening skills. In Week 2, they'll apply these skills to keyboard playing and begin learning short songs with both hands. Designed to prepare children for private lessons, this camp is ideal for those with some musical exposure, but beginners are welcome, too! Led by a dedicated piano teacher with extensive experience in K–5 music education, this camp will culminate in a mini recital for families to celebrate their child’s growth and enthusiasm.
Reading Readiness (Morning Grades 1-2)	Jesus Lozano	When children discover books they love, reading stops being a task and starts becoming a joy! In this reading readiness class, students will learn and practice essential reading skills that help build a strong foundation for their academic future. They will explore a variety of texts and have opportunities to select books that truly interest them, allowing them to follow their passions and curiosity. Through these choices, students will not only develop a love for reading but also gain confidence, independence, and critical thinking skills as a reader.
Snails (Morning Grades 2-3)	Chris Dyer	In this hands-on summer course, students will spend a week exploring the amazing world of snails. Through reading, math, and science activities, children will observe real snails, research to learn fascinating facts, measure and record data, and make meaningful connections across subjects. Students will go on an adventure walk to find their own snails, create snail habitats, and have fun racing their snails at the Gastropod Grand Prix. It's the perfect blend of curiosity, creativity, and joyful learning. At the end of the week, children may choose to keep their snails to observe and take care of them at home or return their snails to their natural habitat at school.
Full STEAM Ahead (Morning Grades 2-3)	Joseph Nuño	Get ready to dive into a world of creativity, teamwork, and problem-solving! This exciting STEAM Design Challenge course for grades 2-3 lets you explore the power of science, technology, engineering, art, and math through hands-on challenges. You'll collaborate with peers, think outside the box, and push your imagination to new heights as you design solutions to real-world problems. Whether you’re building, brainstorming, or experimenting, every day is an adventure in innovation! Join us for a summer of discovery and fun!
Yarn Magic: Amigurumi Adventures! (Morning Grades 4-5)	Torri Horovitz	Have you always wanted to make a soft, adorable Amigurumi friend of your own? Maybe you have seen or heard of the "Woobles"? Ms. H has TONS of patterns and experience with all kinds of critters. You are sure to leave this week with new skills as well as at least one cuddly creature, a special home and some tiny accessories to call your own. No experience or supplies required, but you are welcome to bring a project if you need help finishing it!
Fairy Tales with a Twist: Creative Writing Camp (Morning Grades 4-5)	Gina Meter	In this fun and imaginative writing camp, students will create their own fractured fairy tales by putting clever twists on classic stories. Along the way, they'll learn how to develop engaging characters, structure exciting plots, and write with vivid descriptions. Using writing workshops, games, and creative exercise, students will strengthen their storytelling skills while building confidence as writers.
Presentation Power (Morning Middle School)	Nicole Iskandar	Want to feel more confident speaking in front of others? In this middle school Communications course, students will practice presentation skills through fun, low-pressure speeches and activities. We'll focus on clear speaking, strong body language, and organizing ideas to communicate effectively. This course is all about building confidence and finding your voice.
Drones (Morning Middle School)	Edward Murphy, Ben Howe	Join us for an exciting week of flying and building Drones! By exploring the physics of flight and motion through engineering and design, students will discover the principles of physics and engineering through hands-on glides and dives throughout the week. In addition, students will learn to navigate complicated obstacle courses, and work as a team to work through several complicated challenges and competitions!
Intro to Ukulele (Morning Middle School)	Jeff Worrall	Have you ever wanted to make music but felt intimidated by how hard it is to learn an instrument? This fun and welcoming course will have you strumming real songs from day one. You'll learn the basics of holding and tuning the ukulele, essential chords, easy strumming patterns, and simple songs—all in a relaxed, upbeat environment. No musical experience or instrument required—we'll provide you a ukulele to get started. Whether you want to perform for friends, sing along to your favorite songs, or eventually learn other instruments like guitar, this class is the perfect first step. Grab a uke and let the music begin!
Intro to Sewing (Morning Middle School)	Amanda Poon	Have you ever wanted to learn how to sew? In this week-long course, you will learn the basics of hand and machine sewing and apply your new skills to a couple of basic projects. By the end of the week, you will have at least one finished object, handmade by you! While sewing is the main focus of this class, there is a pathway for students who want to learn how to knit as well. Since knitting is a slower medium, students will end the week with basic knitting skills and an in-progress object. This class is suitable for students of varying skill levels.

Sports Data Science (Afternoon Middle School)	Torri Horovitz	This interactive class turns your favorite sports into a data adventure. Serious decisions that help to shape our favorite winning teams are increasingly driven by data informed analytics. Learn the core math/data skills needed to collect, analyze and visualize performance data. We will use mean, median, mode, and probability to understand how big questions about player safety and performance can be quantified.
Dance (Afternoon Grades 1-2)	Ciona Bohacek	A fun, intensive, and comprehensive dance camp that teaches our lower school Gators musicality, coordination, balance, choreography, dance counts, and technique. Our Gator dancers will learn Royal Academy of Dance ballet technique through learning how to move to the beat of the music, count and pace in dance with the 1-8 counting scale, position feet and arms in ballet, say french ballet vocabulary and execute the associated steps, execute ballet exercises at the bar, practice across the floor dance progressions, play freeze dance, create their own choreography, and learn a dance routine! In addition to ballet, dancers will learn jazz and lyrical musical warm ups, across the floor progressions, and choreography. This Dance Camp is a fun experience to grow musicality, dance understanding and knowledge, and performance confidence for your Gator!
Cartooning Camp (Afternoon Grades 1-2)	Brendon Metcalf (Mr. B)	In this playful, hands on cartooning camp, students will explore the fundamentals of character creation, expressions, and simple visual storytelling. Through guided drawing exercises, creative prompts, and imaginative games, campers will learn how to turn ideas into cartoons using shapes, lines, and personality. We'll experiment with facial expressions, movement, and short comic scenes while building confidence and having fun along the way. Students will draw inspiration from familiar cartoons, characters, and games they already love, while also creating their own original ideas. This camp encourages creativity, curiosity, and self expression. No prior drawing experience is needed!
Classic Games & Creative Challenges: The Ultimate Outdoor Play Camp (Afternoon Grades 1-5)	Morgan and Monic	This week-long camp invites students to explore a wide variety of outdoor games from classic playground favorites to creative team challenges. Through active play, campers will build friendships, strengthen gross motor skills, and develop essential teamwork and communication skills. Each day will highlight a different soft skill that helps students become stronger teammates when working in groups. Through games and hands-on challenges, campers will practice leadership, active listening, conflict resolution, and collaboration. The combination of movement, strategy, and fun will encourage campers to form deeper connections with peers, enjoy healthy physical activity, and celebrate what it means to work together in a dynamic outdoor environment.
Catapults (Afternoon Grades 3-5)	Edward Murphy	For handy and creative students, join us this week as we launch into the adventure of Catapults! Explore the secrets of ancient engineering by constructing your very own catapult from scratch. Together, we'll unravel the science behind catapults, exploring concepts like potential energy, force, and projectile motion. In addition, students should be prepared to get dirty as they experiment and compete to launch objects further than ever before. Fostering teamwork and problem-solving skills, challenges and competitions throughout the week will ignite your child's creativity and innovation.
Scrapbooking (Afternoon Grades 3-5)	Christine Choo and Jen Delgado	In this hands-on scrapbooking class, students will discover the joy of preserving memories through art and creativity! Using colorful paper, stickers, stamps, and more, children will create their very own personalized scrapbooks filled with photos, drawings, and little mementos. They'll learn how to design pages with fun layouts, explore different artistic techniques like stamping and cutting, and develop their storytelling skills as they showcase their favorite moments and dreams.
Grow in the Piano World With Me! (Afternoon Grades 3-5)	Lili Cai	This two-week camp is perfect for students who are ready to begin learning piano in a more focused and structured environment. Week 1 emphasizes rhythm, listening, musical notation, and keyboard basics; Week 2 builds toward longer songs, musical expression, and performance skills. Whether students are beginners or have limited prior experience, this program offers a supportive space to explore music more seriously before starting private lessons. Led by a dedicated piano teacher with extensive experience in K–5 music education, this camp may culminate in a mini recital for families to celebrate students' accomplishments.
Spanish (Afternoon Middle School)	Sara and Cori	We are looking for curious chefs to join us in this Spanish-themed cooking course. Bring your cookings skills and get your taste buds ready, as we will be working with traditional recipes from the Spanish-speaking world and expanding our language abilities at the same time. All levels are welcome. No prior knowledge needed!
Friendly Monster (Afternoon Middle School)	Ben Howe	Building An Interactive Friendly Monster: Ever wanted a stuffed animal that responds to you? Then this is your chance to build an adorable interactive friendly monster with Mr. Howe in the HUB! We will learn about e-textiles, sewing, basic coding using Arduinio (C/C++), and electronics as you build a friendly monster that lights up, sings, and interacts with you using the Lilypad Arduino system. (No prior programming experience required.)

Week 2

Week 2 Summer Offerings (June 15th - 18th)		
Kindergarten Readiness: Language Arts (Full Day Kindergarten)	Sorcha Buret and Megan Venturi	Get ready for a fun-filled week of reading, writing, storytelling, and games! This engaging program helps children build friendships, practice teamwork, and become comfortable with kindergarten routines.Children will explore letters, sounds, and words through hands-on activities that spark creativity, confidence, and a love of learning. The perfect balance of skill-building and summer fun!
Musical Theatre Camp (Full Day Grades 4-8)	Thaine Sugden Kimberly Lostetter	This dynamic theatre camp invites students in grades 4–8 to build skills in acting, singing, and dancing while collaboratively creating a high-energy Musical revue that showcases every performer. Led by an experienced educator and theatre director, students learn in a supportive environment that values teamwork, confidence, and creative risk-taking. Through ensemble work, rehearsal, and performance, campers strengthen public speaking, collaboration, and emotional expression. The program emphasizes belonging, growth, and joy—onstage and off.
Explore the Piano World With Me! (Morning Grades 1-2)	Lili Cai	This two-week session offers a deeper introduction to music and piano, combining fun games with foundational skills. In Week 1, students learn rhythm, solfège singing, basic note reading, and listening skills. In Week 2, they'll apply these skills to keyboard playing and begin learning short songs with both hands. Designed to prepare children for private lessons, this camp is ideal for those with some musical exposure, but beginners are welcome too! Led by a dedicated piano teacher with extensive experience in K–5 music education, this camp may culminate in a mini recital for families to celebrate their child’s growth and enthusiasm.
Reading Fun, Writing Strong (Morning Grades 1-2)	Monic Aguilar	In this class, students will enjoy reading fun and engaging picture books and writing about their ideas and understanding of each story. Young readers will practice important reading comprehension skills by responding to texts through simple, structured writing. With supportive teacher guidance, students will learn to reread and edit their work by checking for capital letters, spacing, and end punctuation. This course builds strong early writing habits while helping students feel confident and proud of their work.
Reading Readiness (Morning Grades 1-2)	Jesus Lozano	When children discover books they love, reading stops being a task and starts becoming a joy! In this reading readiness class, students will learn and practice essential reading skills that help build a strong foundation for their academic future. They will explore a variety of texts and have opportunities to select books that truly interest them, allowing them to follow their passions and curiosity. Through these choices, students will not only develop a love for reading but also gain confidence, independence, and critical thinking skills as a reader.
StoryMath Adventures (Morning Grades 2-3)	Ellen Carroll	Through the joy of great literature, campers will explore math in a fresh and meaningful way. Carefully selected stories will set the stage for reviewing and previewing key skills, offering rich contexts for deeper understanding. Designed by Ellen Carroll, who brings 20 years of teaching experience, including teaching all subjects in Kindergarten and 3rd grade, this camp features engaging activities packed with purposeful practice. With an emphasis on problem-solving strategies, using models to show their thinking, and engaging in math games, campers will grow their confidence while having fun.
Imaging the Future: Fantasy and Sci Fi Then and Now (Morning Grades 4-5)	Gina Meter	Step into a world of imagination in this lively literature club! Students will read exciting short stories– from classic science fiction to modern fantasy– and explore surprising twists, mysterious characters, and imaginative worlds through discussion and creative activities. Along the way, the reader will build comprehension, critical thinking, and a deep love of storytelling.
Bottle Rockets (Morning Grades 4-5)	Edward Murphy	Join us in this hands-on summer camp class where students design, build, and launch Bottle Rockets powered by the classic baking soda and vinegar reaction. Campers explore basic chemistry, pressure, and Newton’s laws of motion while experimenting with different rocket body shapes and fin designs. Working alone or in small teams, they will sketch ideas, build prototypes from recycled bottles, test launches, and record data on height and distance. Along the way, we educate about and emphasize experimental safety, creativity, and problem-solving. By the end of the session, each team will refine a final rocket and celebrate with a fun, science-filled launch day!
Middle School Baseball/ Softball Camp (Morning Grades 4-8)	Joseph Nuño	Step up to the plate this summer and join our Baseball/Softball Camp designed for middle school students of all skill levels! Whether you’re a beginner eager to try something new or an experienced player looking to sharpen your game, this camp focuses on skill development, teamwork, and game strategy in a fun, supportive environment. Campers will build confidence while learning fundamentals like hitting, throwing, fielding, pitching, and base running through engaging drills and game play. Come learn more about the game, get some extra practice in, and enjoy a few hours of your summer on the field!
Battle Bots (Morning Middle School)	Ben Howe	BattleBots: Want to build your own robot for battle? Then now is your chance with Mr. Howe in the HUB! In this camp we build mini robots that are ready for battle. You will learn the basics of making a simple robot, coding it to move (block-based and no programming experience required), and go through a design engineering process to make your robot survive from others. Note: We will be making robots that can easily disable one another such as flipping them over or popping balloons. We won't be doing anything extremely dangerous like real battlebots with rotating saws, flamethrowers, etc. Safety as well as fun is very important in this camp!
Spanish Speaking World (Morning Middle School)	Sara Gonzalez Coello and Cori O’Hagan	Join us this summer to learn about the Spanish-speaking countries in this comprehensive course. In each lesson, we will learn about a different country focusing on many different cultural elements, such as food, music, literature, famous characters, sports, etc. The idea is to marvel in the diveristy of the Spanish-speaking world, practice conversation, and become a global ambassador.
Cartooning Camp (Afternoon Grades 1-2)	Brendan Metcalf	In this playful, hands on cartooning camp, students will explore the fundamentals of character creation, expressions, and simple visual storytelling. Through guided drawing exercises, creative prompts, and imaginative games, campers will learn how to turn ideas into cartoons using shapes, lines, and personality. We'll experiment with facial expressions, movement, and short comic scenes while building confidence and having fun along the way. Students will draw inspiration from familiar cartoons, characters, and games they already love, while also creating their own original ideas. This camp encourages creativity, curiosity, and self expression. No prior drawing experience is needed!
Gator Sports (Afternoon Grades 1-2)	Jesus Lozano	Ready for an active summer? In this session, students will try a different sport every day, focusing on developing a range of skills in a safe and supportive environment. Activities encourage teamwork, skill-building, and positive participation, giving every student the chance to engage, learn, and enjoy being active during summer!
Scrapbooking	Christine Choo and Jen Delgado	In this hands-on scrapbooking class, students will discover the joy of preserving memories through art and creativity! Using colorful paper, stickers, stamps, and more, children will

(Afternoon Grades 3-5)		create their very own personalized scrapbooks filled with photos, drawings, and little mementos. They'll learn how to design pages with fun layouts, explore different artistic techniques like stamping and cutting, and develop their storytelling skills as they showcase their favorite moments and dreams.
Grow in the Piano World With Me! (Afternoon Grades 3-5)	Lili Cai	This two-week camp is perfect for students who are ready to begin learning piano in a more focused and structured environment. Week 1 emphasizes rhythm, listening, musical notation, and keyboard basics; Week 2 builds toward longer songs, musical expression, and performance skills. Whether students are beginners or have limited prior experience, this program offers a supportive space to explore music more seriously before starting private lessons. Led by a dedicated piano teacher with extensive experience in K–5 music education, this camp may culminate in a mini recital for families to celebrate students' accomplishments.
Dance: Hip Hop (Afternoon Grades 3-5)	Katelyn Cheng	Get your groove with this summer hip hop dance course! In this interactive dance class, students will learn three energetic and groovy hip hop dance pieces and various aspects of movement including how to freestyle and fun warm-up routines. Dancers will have the opportunity to perform what they have learned as a whole and in groups at the end of the week. This course encourages students to build their confidence, creativity, critical thinking, along with their memorization and coordination skills. Through ideas of movement and creativity, this space is meant to be a low-stress and collaborative environment. No previous experience is required. All are welcome to join!
Friendly Monster (Afternoon Grades 4-5)	Ben Howe	Building An Interactive Friendly Monster: Ever wanted a stuffed animal that responds to you? Then this is your chance to build an adorable interactive friendly monster with Mr. Howe in the HUB! We will learn about e-textiles, sewing, basic coding using Arduinio (C/C++), and electronics as you build a friendly monster that lights up, sings, and interacts with you using the Lilypad Arduino system. (No prior programming experience required.)
Spanish Film (Afternoon Middle School)	Sara Gonzalez Coello and Cori O'Hagan	¡Acción! Become a movie star, screenplayer or camera person in this course that combines Spanish and filmmaking. We will create our own unique scripts, shoot the scenes, and edit the recording to create a wonderful short film. Even if you are interested in performing or you are more into production, you will be a great fit. No previous knowledge required. All Spanish levels are welcome.
Helping Hands MS Service Camp (Afternoon Middle School)	Ms. Horovitz and Ms. Power	Cooking, creating and getting your hands dirty! You will be supporting local outreaches and on campus programs. Each summer our trips vary a bit based on needs and student guided decisions, but we will again make our legendary Costco run and put together fabulous sandwiches and hot meal for Sandwiches on Sunday.
Woodcarving (Afternoon Middle School)	Edward Murphy	Join us in learning and practicing the fine art of Wood Carving. From Whittling to Relief, learn the tools and cuts to take any plain ole piece of wood into something magical and hand crafted! Students will enjoy working with a variety of tools including Gouges, Chisels, and Knives over the course week, and will end the week with their very own treasure! Avoid the cuts and bring home a whole new skill!

Week 3

Week 3 Summer Offerings (June 22nd - 26th)		
Create, cook, and HAVE FUN! (Full Day Kindergarten)	Joy and Hannah	Join us for a one week summer program for kindergarteners! Throughout the week, students will explore painting, collage, texture art, and nature inspired creations. We will also incorporate simple food art activities(and enjoy!) their own snacks in a safe guided setting.
Musical Theatre Camp (Full Day Grades 4-8)	Thaine Sugden Kimberly Lostetter	This dynamic theatre camp invites students in grades 4–8 to build skills in acting, singing, and dancing while collaboratively creating a high-energy Musical revue that showcases every performer. Led by an experienced educator and theatre director, students learn in a supportive environment that values teamwork, confidence, and creative risk-taking. Through ensemble work, rehearsal, and performance, campers strengthen public speaking, collaboration, and emotional expression. The program emphasizes belonging, growth, and joy—onstage and off.
Around the World! (Morning Grades 1-2)	Angela Fiorentinos	Hop in the plane, we are going on a trip! Embark on a global adventure with “Around the World”! This exciting class takes kids on a "trip" to explore diverse cultures through hands-on activities like crafts, games, dances, and even delicious foods. Each day features a new country, offering a fun and immersive experience that broadens horizons and sparks curiosity. Come on this journey that celebrates the beauty of world cultures!
Discover the Piano World With Me! (Morning Grades 1-2)	Lili Cai	This one-week camp invites young musicians to explore the piano through rhythm games, musical storytelling, singing, and hands-on keyboard time. Each day is filled with joyful learning and gentle structure, helping students build confidence while having fun. Whether it’s their first time at a piano or just the beginning of a musical journey, this camp offers a nurturing space to spark curiosity and creativity. Led by a dedicated piano teacher with extensive experience in K–5 music education, this camp may culminate in a mini recital for families to celebrate their child’s progress together.
Poetry Explorers (Morning Grades 2-3)	Monic Aguilar	In this engaging poetry camp, students will study how poets use poetic devices such as rhyme, imagery, repetition, similes, and sound words to strengthen their writing. Through mentor poems and guided practice, writers will experiment with each device and apply it to their own original poems. With clear instruction and teacher feedback, students will grow in confidence while developing strong poetry skills. The week concludes with a poetry celebration where students proudly share their work.
Reading Readiness (Morning Grades 4-5)	Jesus Lozano	When children discover books they love, reading stops being a task and starts becoming a joy! In this reading readiness class, students will learn and practice essential reading skills that help build a strong foundation for their academic future. They will explore a variety of texts and have opportunities to select books that truly interest them, allowing them to follow their passions and curiosity. Through these choices, students will not only develop a love for reading but also gain confidence, independence, and critical thinking skills as a reader.
Pre-Algebra Skills (Morning Middle School)	Ms. Horovitz	How do algebra skills help you make a delicious snack? Join Ms. H each morning for adventures that will help you review core Algebra 1 readiness skills while also having a great time. You will leave with some colorful and clear reference tools for next fall's Algebra 1 class and some outstanding summer memories. Don't miss out on this chance to perform "Random Acts of Math"!!
Woodcarving (Morning Middle School)	Edward Murphy	Join us in learning and practicing the fine art of Wood Carving. From Whittling to Relief, learn the tools and cuts to take any plain ole piece of wood into something magical and hand crafted! Students will enjoy working with a variety of tools including Gouges, Chisels, and Knives over the course week, and will end the week with their very own treasure! Avoid the cuts and bring home a whole new skill!
Spanish Speaking World (Morning Middle School)	Sara Gonzalez Coello and Cori O’Hagan	This is round two of our Spanish-themed cooking course. We are looking for curious chefs to join us in this course. Bring your cooking skills and get your taste buds ready, as we will be working with traditional recipes from the Spanish-speaking world and expanding our language abilities at the same time. No prior knowledge needed!
Gator Sports (Afternoon Grades 1-2)	Jesus Lozano	Ready for an active summer? In this session, students will try a different sport every day, focusing on developing a range of skills in a safe and supportive environment. Activities encourage teamwork, skill-building, and positive participation, giving every student the chance to engage, learn, and enjoy being active during summer!
Animation (Afternoon Grades 3-5)	Brendan Metcalf	In this creative animation workshop, students will explore how drawings can be turned into moving images. Using pencil and paper, students will design characters, draw short animation sequences, and learn the basics of movement and visual storytelling. No experience is required. Students’ drawings will be turned into a short animated video that we’ll watch together on the final day, and a digital copy will be shared with families. This class is all about creativity, experimentation, and having fun while learning how animation works.
Design Thinking- Think it, Design it, Build it! (Afternoon Grades 3-5)	Joseph Nuño	Get ready to imagine, create, and solve real-world problems in our Design Thinking summer enrichment class for grades 3–5! Students will explore fun challenges that encourage creativity, teamwork, and innovative thinking as they design, test, and improve their ideas. Through hands-on projects and brainstorming activities, learners will build confidence while discovering how great ideas grow. This exciting class is perfect for curious minds who love to invent, experiment, and think outside the box!
Yarn Magic for Middle School (Afternoon Middle School)	Ms. Horovitz	Have you always wanted to make a soft, adorable Amigurumi friend of your own? Maybe you have seen or heard of the "Woobles"? Whether you have lots of experience or are just curious about all those critters in the windows of Room 421- join Ms. H for a week of relaxing crochet skill building fun. You are sure to leave this week with new skills as well as at least one cuddly creature and some tiny accessories to call your own. No experience or supplies required, but you are welcome to bring a project if you need help finishing it! OR choose from the ever increasing collection of Wooble patterns in Ms. H's library.
Mystery Explorers (Afternoon Middle School)	Gina Meter	Get ready for stories full of shocking twists, sneaky surprises, and mysteries you won’t see coming! In this week-long book club, students will dive into mysterious short stories, reading and discussing them in fun, low-pressure conversations. They’ll respond to the texts through both writing and creative art projects while sharpening key reading skills like making inferences, spotting themes, and analyzing figurative language. By the end of the week, students will have leveled up as readers and thinkers while having a blast!
