

Beanstack: a Guide for FCPS Students and Families¹

What is Beanstack?

Beanstack is a reading challenge platform that is accessible through a website and free mobile app. Students and families may use it to create reading logs, participate in reading challenges, read book reviews and track independent reading. The app and website sync, so that students can log in either place.

Resources

The following resources were compiled by FCPS Media Specialists to assist students and families in navigating Beanstack. For additional information or questions, please contact the media specialist at your child's school.

Beanstack Username and Passwords:

- **Website:** log into Clever with FCPS username and password
- **App:** use student ID number (located on report card or by contacting the school) as the username and birthdate (in mmddyy format) as the password

- ☐ **Using the Beanstack Website** <https://bit.ly/FCPSBeanstackWebsite>
This video explains how to log reading by using the Beanstack website.

- ☐ **Using the Beanstack App** <https://bit.ly/FCPSBeanstackApp>
This video explains how to log reading by using the Beanstack mobile app, which is available free through both the Google Play and Apple stores.

- ☐ **Linking FCPS and FCPL Accounts** <https://bit.ly/FCPSBeanstackLinking>
These directions explain how to link FCPS and FCPL Beanstack accounts. Once linked, reading logs should sync across both accounts.
Note: You will either need to create a Beanstack account for FCPL or locate the username and password of your existing account in order to finish linking the two accounts.

- ☐ **Additional Resources**
