

Agenda

- Harvesting/Export Working Group: organization, technical design and on-going implementation, and contributions from the community

Attendees

- Leonid Andreev, IQSS
- Eleni Castro, IQSS
- Ben Companjen, DANS
- Jon Crabtree, Odum
- Mercè Crosas, IQSS
- Tim DiLauro, Johns Hopkins
- Philip Durbin, IQSS
- Sherri Lake, UVA
- Amber Leahey, Scholars Portal
- Steve, IQSS
- Akio, Odum
- Len, IQSS
- [someone else from Scholars Portal]

Notes

- Leonid: Rewriting code that implements PMH server and client.
- Mercè: Who will work on what? Is client and server the logical split between developers.
- Amber: Ideally, restoring the OAI-PMH capabilities from DVN 3 might be a logical first priority.
- Leonid: Have not determined exactly how to send back the JSON. May have to step out of OAI-PMH for that.
- Mercè: Just the OAI-PMH capabilities might not be satisfying to new users interested in getting at all data, but would probably be a good first step.
- Jon: Maybe prioritized set of three deliverables: First, OAI-PMH; then [a more rest-like] API, through which we could get JSON, etc.; finally, a [ResourceSync-like] capability through which content could be transferred.
- Leonid: Someone needs to start working on DDI Export at this point, since it has been passed around, but seems to not currently be assigned.
- Steve: I am working on DDI Export in <https://github.com/IQSS/dataverse/issues/2579>
- Associated BRD/FRD
 - Harvesting BRD:
https://docs.google.com/document/d/1ZTT25ezl9w-3FA1Pf_e96sfME0rEuJjn8wr_vvvo8YY/edit?usp=sharing

- Harvesting FRD:
 - https://docs.google.com/document/d/1C-4ZYsziFmDNnLLFQTn9voLSLFEQDxd4eqOI4SZ_63M/edit?usp=sharing
- Exporting Metadata BRD:
 - <https://docs.google.com/document/d/1ZSyK8uldlnma6ttxB1EREQ-462f8fAi5s41DY6qOBWs/edit?usp=sharing>
- Who/what role should be able to enable export/harvest?
 - Amber: Might be useful for roles other than NetworkAdmin/SuperAdmin to be able to set up harvesting sets. This would be a new feature that wasn't available in DVN 3.6.
- Dataverse 4.4: Widgets
- Dataverse 4.5: Harvesting
- What should Akio work on?
 - Akio would like to know more about permissions.
 - Phil mentioned this JavaOne 2014 talk: BOF5619 Lean Beans (are made of this): Command pattern vs. MVC - <http://iqss.github.io/javaone2014-bof5619>
 - Would Akio implement the server side of OAI-PMH?
-
