

As a dedicated and active PIPSC Steward/NR member employed in the NCR, I am seeking your support for re-election to the NR Group Executive.

Several advancements in collective bargaining have been achieved over the years but there's still much more work to be done! I will help the Executive improve the two-way communication between members and the Group so that the pressing concerns of our members are adequately addressed with an ultimate goal of making members happier by putting them first!

My key objectives are to:

- Contribute to bargaining and a better Collective Agreement (CA). Like many of you, I have a vested interest in CA negotiations since I have many years of service left.;
- Work towards correcting the discrepancy in pay between the private and public sectors;
- Resolve existing Phoenix or other pay problems;
- Advance professional development; and
- Protect sick leave and wellness/support policies.

By placing your trust in me, you can count on a dependable representative who will invest time to protect members' interests and improve their workplace!

Thanks for your support again,
Donna Scarlett
