Omni Storefront & Welcoming Committee by ABDC

Greetings Omni,

ABDC is retracting our previous proposal to rent and occupy space in the front hall, we will continue only to pay for the ticket booth room. Instead we are seeking to reinitialize Omni's former Welcoming Working Group and steward the front entry hall.

In this stewardship we have several plans of action we want to execute.

1. We would like to clean-out, finish construction work, paint and decorate the front entry way.
2. We plan to build and place a mobile café cart with which to operate a casual donation based café that any interested person can help operate.
3. We would like to set up a merchandise selling zone with two or three racks where we display Omni, ABDC and other collective's apparel & merchandise.
4. We want to have one-day monthly printing showcases in the front hall where we show the public the silk-screen printing process.

FIRST:

Our plan is to spend one month improving the front hall space. We will clean, remove junk, patch holes, fill in missing ceiling tiles, paint and all around beautify the space. The front hall will consist of a mobile café zone, a merchandise zone, a mobile stage zone and seating/recreational space. We intend to keep everything mobile or easily moveable to ensure the space can adapt to the needs of any future events that take place there.

SECOND:

During that one-month improvement period we will also build a mobile coffee cart, similar to this:

This will be a simple donation based café, which we will staff and operate with ABDC members and other interested and committed individuals to ensure regular hours the public can rely on. We already have enough of our members committed to keep it open 4 days a week. The café will be an integral part of the Welcoming WG by keeping the doors open during operating hours. ABDC will manage the operations, supplies and finances related to running the café.

THIRD:

The merchandise selling zone will simply be some clothing racks or cases with which we can display material we have printed. This would primarily consist of Omni, Phat Beets and ABDC t-shirts along with any future designs from the other collectives. The same ABDC member running the café will also make the sales for the merchandise.

FOURTH:

As part of our ongoing effort to bring in new members and introduce the public to silk-screening we want to host day-long monthly printing blasts where we print t-shirts or posters in the main hall as an activity the public can watch and interact with.
