Technology Responsible Use Agreement

Please also visit [Common Sense Media](#) where you can find a [family agreement](#) and other important information. Please keep a copy for your records.

Responsible Students ...

- ... make sure devices are put away and charging after they have finished using them.
- ... listen to adults and follow their guidance when it comes to technology.
- ... make appropriate choices.
- ... are balanced by following school and home time limits.
- ... take good care of the device they are using.

Thinkers think about ...

- ... being balanced with my device usage.
- ... my identity and that of others appropriately protected from strangers.
- ... who it is safe to share my password with.
- ... what information is safe and appropriate to share online.
- ... getting permission before taking action.
- ... telling an adult if I see something that is inappropriate.

Principled students ...

- ... follow the rules my family makes about technology use at home.
- ... follow the school's Responsible Use Policy.
- ... make good choices.
- ... collect evidence of images or messages I find uncomfortable.

Communicators ...

- ... are kind and respectful when online.
- ... use positive language to others online.
- ... let others know when I am talking about them online.

Parents

- I will talk with my child about my expectations for technology use at home.
- I will talk with my child about their interests and help them find things online that are appropriate and fun.
- When concerned about my child's technology use I will talk with my child about what concerns me and why.
- I will work in partnership with the school to support my child.

School

- We will guide you in how to work responsibly, safely, respectfully, and honestly with technology.
- We will be available to answer questions you have about technology.
- We will partner with your parents to help you make good decisions.
