Dear Big Hit,

Subject: Urgent: Hate Campaign Against Jimin on Weibo

Dear Bighit team,

I am writing urgently to alert you about a concerning situation involving Taekookers on Weibo. They are planning to launch a hate campaign against Jimin on his birthday, the 13th of this month. Jimin has been targeted by these extreme shippers, which is extremely alarming.

Various accounts are promoting attacks and even wishing death upon Jimin, which is absolutely unacceptable. It is crucial that the company is aware of this and takes strict action against these individuals to ensure the well-being of the artist.

Thank you for your attention, and I hope measures can be taken to address this alarming situation.
