

DISREGARD THIS PAGE and LOOK FOR the posters and print products [at TeeSpring](https://www.teespring.com). This method of carrying inventory (below) was not practical. But until I get this page redesigned -- you can still see sort of how they will look even from teespring.

Shipmate Bill Scroggins did this art. They are digital files that have been printed for a fundraiser for the IRISH SONG ASSOCIATION. Here is what they look like... and the prices. I **STRONGLY** suggest you get two prints of different views because they make an impressive display. See my own prints as an example. (p2)

WE NOW USE TSPRING to print our materials

Other views are available on a thumb drive. You can get that for \$20. TEN postcards of these views is \$5 (add \$5 shipping if separate shipments)

Send check to Vic Campbell 6933 Martin Road Milton, FL 32570. I can invoice by paypal if you prefer. Send me an email to vic@buzzcreek.com.

The framing used by Vic Campbell. These were printed from the thumb drive at a "sign printer" because they have paper big enough to make it happen. The cost was reasonable. I understand STAPLES and UPS Stores are often equipped to print large formats too. By using an online service, I was able to get a reasonable price on a quantity to allow for some fundraising for the association. ENJOY.
