

## Middle East Map Work

Use two copies of the Middle East map, and identify the following on each. Label things neatly and add color as appropriate

| Middle East Map #1--Countries, Cities, and Places |                                        | Middle East Map #2--Landforms and Bodies of Water |                   |
|---------------------------------------------------|----------------------------------------|---------------------------------------------------|-------------------|
| Afghanistan (Kabul)                               | Palestinian Territories                | Caspian Sea                                       | Syrian Desert     |
| Bahrain                                           | Pakistan (Islamabad)                   | Mediterranean Sea                                 | Sinai Peninsula   |
| Cyprus                                            | Qatar                                  | Arabian Sea                                       | Hajaz Mountains   |
| Golan Heights                                     | Saudi Arabia (Mecca, Medina, Riyadh)   | Black Sea                                         | Asir Mountains    |
| Iran (Tehran)                                     | Syria (Damascus)                       | Persian Gulf                                      | Najd Plateau      |
| Iraq (Baghdad)                                    | Turkey (Ankara)                        | Red Sea                                           | The Levant        |
| Israel (Jerusalem)                                | Turkmenistan                           | Strait of Hormuz                                  | Iranian Plateau   |
| Jordan                                            | United Arab Emirates                   | Gulf of Oman                                      | Nile River        |
| Kuwait                                            | label the parts of Africa you know too | Suez Canal                                        | Arabian Peninsula |
| Lebanon (Beirut)                                  |                                        | Rub Al'Khali                                      | Mesopotamia       |
| Oman                                              |                                        | Zagros Mountains                                  | Euphrates River   |
|                                                   |                                        | Tigris River                                      |                   |

Print the outline map of Turkey Label the following neatly and add color as appropriate.

| Turkey Map                |                    |                 |
|---------------------------|--------------------|-----------------|
| Istanbul                  | Anatolian Plateau  | Black Sea       |
| Ankara                    | Armenian Highlands | Tigris River    |
| Selcuk (Ancient Ephesus)  | East Thrace        | Euphrates River |
| Antakya (Ancient Antioch) | Pontic Mountains   | Bulgaria        |
| Tarsus                    | Gulf of Antalya    | Greece          |
| Hisarlik (Ancient Troy)   | Aegean Sea         | Georgia         |
| Antalya                   | Sea of Marmara     | Syria           |
| Taurus Mountains          | Mount Ararat       | Iraq            |
| Dardanelles Strait        | Lake Van           |                 |
