

March 2024

Meeting was held to review agenda for the annual meeting. The date for the room was reserved prior to the meeting. Board members discussed two emails received and determined there was no new specific action the board could or needed to take. For awareness and public comment the concerns will be added to the annual meeting agenda. Notifications will be sent in about a week.

Misty will handle the RFP for the retention pond cleanup and Wes will begin the RFP process for the tree removal.

No other actions required review of vote.
