

"Knight to E7", Did you just check me?

Hello Felicia,

I recently came across your stunning creations in custom chess epoxy tables and pieces. Your work is not only incredible but also showcases a remarkable level of artistry.

I noticed you have many untapped opportunities you could take advantage of to grow and scale your business, like adding brand storytelling, running Facebook ads, building a web page, there are so many venues that could magnify the growth and scalability of your business.

Feel free to drop me a message whenever you have a moment to talk about these opportunities. Should you decide it's not the right time or direction for you, no worries at all—I genuinely wish you continued success

And speaking of immediate enhancements, I have a suggestion (free of charge) that could promptly boost your sales. I'd be happy to share the details with you if you're interested.

Have a good day
