

How to list all volumes in a tenant

Jing, mqjing@gmail.com

Command

cinder --os-tenant-name <Name> **list**

ex:

cinder --os-tenant-name EC_TEAM list

```
ubuntu@tpeswhqcontroller10:~$ cinder --os-tenant-name EC_TEAM list
+-----+-----+-----+-----+-----+-----+
|          ID          | Status |          Display Name          |
| | Size | Volume Type | Bootable |          Attached to          |
+-----+-----+-----+-----+-----+-----+
| 0702e2c0-b204-4877-9931-6955ba192f6f | in-use | vol-EC-VM10-Win-7-x32-pro | |
| 55 | nfs.io60 | true | 1b896c06-8c15-487f-8844-ad37ca98c2cb |
| 182f21c7-118a-43e7-9978-cbad6058942d | in-use | vol-EC_VM-EC-62G-init-01 |
| 30 | nfs.io60 | false | 8e4bec22-9e5f-4458-a1f6-ef79cb57d01f |
| 7457e5b4-7b34-4bhd-9c70-e3c2edh0295c | in-use | vol-EC-VM11-RMS-Win-7-x32-r |
```
