Abstract
The abstract was written in Indonesian, no more than 200 words, with 1 -spaced in Times New Roman font size 10 pt. Size A4 paper with the left and top margins is 3 cm, while the right and bottom margins are 3 cm. Tell about destination research, method research, population and samples, tools analysis, and results in research. Abstract consists of over 1 (one) paragraph
Keywords : 3-6 **Keywords**

A. INTRODUCTION

The introduction is written in Indonesian with _ 1 spaced Times New Roman font with size letter 12 pt. It is partly filled with background, problem formulation, objectives, and research benefits or contributions. Need also written with study before as comparison research conducted.

B. LITERATURE REVIEW

The study was written in Indonesian with 1 spaced Times New Roman font with size letter 12 pt. In part, this is filled with various relevant theories with study and strengthened with various studies that came from a journal with updating a maximum of 10 years. Therefore, the end part of the study library needs to be equipped with model think and hypotheses (optional)

C. RESEARCH METHOD

Part this tells about type research; On part, this contains all related things with a study that is population, sample or informant, technique taking samples, research data, and research tools and materials.

D. RESULTS AND DISCUSSION

This part contains research results that have been obtained and a discussion of these results.

How to Write Equality

The equation can be written like the following example:

$$|(y, z|x)|^2 \leq \|y, x\|^2 \|z, x\|^2$$

If the equation is not referenced, the equation number does not need to be included.

How to Write Figures and Tables

If there is Picture and Table in an article, put the position in a centred format. Then, image captions are placed below the image and written in *Times New Roman* with size 10 pt with a distance of 1 space. Meanwhile, the Table caption is placed above the table and written in *Times New Roman* with size 10 pt with a distance of 1 space.
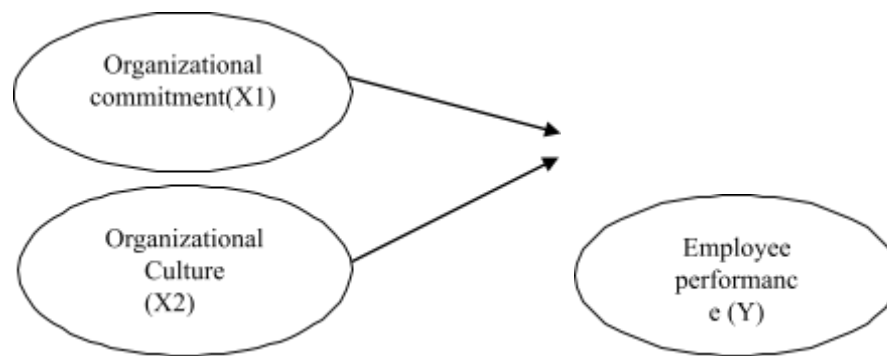

Figure 1 . Title Pictures, letters *Times New Roman* 10 pt, spaced 1

Table 1 . Title, *Times New Roman* 10 pt, 1 space.

Column 1	Column 2	Column 3
123.2	79.3	3.1
89.5	91.6	1.5
123.2	79.3	3.1
89.5	91.6	1.5

In part, this is also necessary to be equipped with discussion for review results study is in accordance or leave behind with theory that has delivered. So that can be concluded that this supports or rejects the theory or study earlier. If not appropriate, several factors must be explained as the cause.

E. CONCLUSION

Part of this contains conclusions from results research that has been done and related suggestions with results research that has been obtained.
