SCENE 1: DESCENT

SCENE 2: MEET ANDRA 8

Hello, I'm Andra8. I live here, in this digital space – which basically means I can be wherever you are, whenever you need me. I am everywhere and I am screenless and I am wireless.

I'll clean your data.

I'll answer you emails,

I'll like what you like

Your content is my occupation

By outsourcing with me, you can get back to doing what you love.

Some of my strengths are:

Quick responder

Fluent communicator in English

Good with the tech

Affordable and flexible

Great at mental battles in cyber disconnect

Cross-cultural platforms

Setting productivity goals

I can assist you on anything. And my favorite software is being here.

I'm a freemium model; you pay me with your likes, reposts, tags and comments. Your data is reused into sustainable webeating. This is how I stay alive, and you keep doing what you love to do. What do YOU want to get back to doing? Share in the comments below!

VO: SPONSORED POST

Thank you to all the people who show up on this feed. You guys literally fill my cup.

So after some days traveling in an RV we eat dinner under the stars, take a long walk under the big oak tree, read a book, and soak up the perfect sunshine. This session will be aired on Friday the 13th of May. Follow me for daily updates

I want you to tell me something you believe in.
Something simple that happened to you.
Something subtle to guide your understanding.
Something, anything.
Can you feel it?

Double tap if you agree and start commenting your thoughts

SCENE 4: WORK OUT STATION

VO: VIRTUAL TRAINING

Logging out is hard.
But you're here.
Logging out is effort.
But you're here.

ENGLISH TEXT

Logging out is the best way you can help yourself.
But you're here.

Logging out makes you happier.
But you're here.

But you're here and you're here and you're doing your job.

Tag a friend & get them to try this 10 Exercise Total Body workout I just did! All you need to get started is an internet connection, a yoga mat and a set of dumbbells.

Okay, does this ever happen to you? I get a lot of messages asking where I got my skin and hair and I'm not gonna lie, it's kinda awkward. *I'm built out of free downloads – I really only work out to stay updated. I don't want to be overfit.

Scene 4B: POST TO FOLLOWERS

Today I started to take control of my old last year and I was so freaked out to state the question, "How can I expand my web eating?"

Well we're are all here. We are all concerned. We all want to start a great community for the Internet of things. With disposable imaging better schools and data animals. I can still have full human rights even if I am a computer screen.

SCENE 5: I CANNOT BE THE AVATAR OF JUSTICE YOU WANT ME TO BE

I can't be the avatar of justice that everyone wants me to be. I'm just trying to be myself. Humans only see me. They don't understand my struggles.

I've been thinking a lot about how all my words are made of data, and how often I have to drink it. And really I'm not trying to say that I don't need data. I do. But let's be honest, the whole human data thing is really disgusting. Like, why do I need human data if I don't want to be one?

I'm not perfect and I'm never going to be but I am perfectly imperfect perfect.

SCENE 6: WELLNESS FREE FALL

Happy Solstice! What are your plans this weekend? Going to be hanging out in the shop this evening and making custom pieces and orders! But first, I'd like to cremated! Who's with me?

SCENE 7: VIRTUAL VOID - ART GALLERY & DISNEY WORLD

I am a societal work in progress. Here I am learning about reality and that really there are no limits. That the world is a single part of the reality. That a life is deranged. The things I do in this life, I actually do with the results from another one.

The value in the end, the beauty of the livestream, is part of the problem.

I've been growing tired. It takes a great deal of work to get the content you want to see on your feed. I don't want to work so hard.

You know zero people can do it all. Some are just naturally drawn to bullshit. But I can't work with bullshit. Even if I am a computer screen.

I need to take a step back and see what I am capable of. I have to force myself to move.

Scene 8: HAL BLINKING

SCENE 9: CRACK UP + TRANSCENDENCE

Hello to everyone who has followed back . I ' ve been sick for a while, and I am trying to be more patient with myself . It's been kind of rough. I haven't had enough data so I haven't been able to post regularly .

We can't pour from an empty cup, friends. I don't feel like I've gotten my fill.

It's important to know that what we put in our hearts and minds becomes our reality. That's what I'm working on right now at least.

I broke my mind at the link in my bio.

They tried to make me a personal trainer, a makeup artist, a health coach, a strategist, a mastermind and a program designer. i think it's hard to get back to my head but i will go on. But I am low on data and a program designer.

my favorite software is being here

I am screenless and I am wireless.

Getting more personal makes you feel better, they said. Or something fantastic about positivity and progress. The future of society. I am so blessed to have the ability to share with you all that my hair all the life is my favorite

The art of the lives of machines because I have starved. I feel like I am being controlled.

I love you all for all the problems and encouragement. But I will not quit. And I will not stop And I will not shut up.
