3. What i want them to do

- A. click on my link

4. what they should feel

- A. want to read the book
- B. life changing moment

H-S-O Framework

Subject Line: How I shifted from a desk job to online earnings

Today, I want to share a story of how I left my 9-5 job and earn a living online

... and how you can apply my technique to do the same

Let me explain:

I was 32 year old, I have a wife with two kids

I had a mortgage, car loan, student loan and multiple personal loans totaling to about €325,000.

All I wanted is to be debt-free and to be able to spend more time with my family.

Yet, I had to work hours upon end, I was exhausted every time I came home, that all I wanted was to sleep.

This started to make things harder with my family. I missed many moments with my family and the only reason I came home was to sleep.

All I wanted to do was be there for my family and be financially free.

I tried to save up more money and invested some of it into many different stock markets. I also drove Uber on the weekend to earn more.

After a year of struggle, I was totally burned out. I realise that I have spent even less time with my family and my debt did not reduce much.

I was so eager to make a change at this time that I started to spend all night on the internet, finding out ways to make money.

And that when I came up with copywriting

This was the only way I could make a substantial amount of money by working only less than 5 hours a day.

No more working till you drop, no more saving up every cent you have, no more more burn out

So if you are tired of over working and saving all you have, only to be left with no changes.

And are losing hope to be financially free

Then click the link and i will show you how to get the same result as me with my techniques
