Spy School Goes South by Stuart Gibbs

Ben Ripley, a 13 yr old spy-in-training, wanted to try to end the evil organization, SPYDER, but on the plane to SPYDER headquarters, they find out that their pilot is an evil Spyder double agent and they quickly take them out and have to try to fly the plane. So, they crash land in the middle of a Mexican forest. Will Ben defeat SPYDER or die trying?

"*Spy School Goes South by Stuart Gibbs*", uses the theme of, often trust in friends will help in bad situations.

I would rate this book a 8/10 because even though the book uses a lot of very commonly used spy movie cliches and

tropes, it is still an extremely fun and edge-of-your-seat book. As a warning, they do say some curses, yet some your family may consider to be bad because they are mostly very small curses, also there are mentions of graphic blood, guns and other weapons, and terrorism. In

my opinion, if you really like James Bond movies or stories where normal becomes something fantastical, you will probably like this book. The story follows Ben Ripley, going to a CIA Spy School. Ben Ripley starts out as a normal middle schooler(for the harry potter fans)
