

MY FUTURE CAREER (SPEECH)

1. Let me introduce myself to you. I'm ... (*name & surname*)
2. I'm a *third-year student/junior* of Berdychiv Applied College of Industry, Economics and Law.
3. I specialize in machine-building.
4. And my field of training is “Modern computer technologies in machine-building”.
5. I have chosen this profession because machines occupy a special place among outstanding man-made inventions.
6. Machine-building industry supplies equipment to all industries and effects the level of the development of modern society.
7. The life of modern society is impossible without machines.
8. To become highly-skilled specialists we are taught a number of general subjects, such as Mathematics, Physics, Philosophy, English and special subjects: Descriptive Geometry, Welding Processes, Metal Working Processes, Machine Construction and many others.
9. We also study different kinds of machine-tools, (for example: lathes, grinding machines, drilling machines, boring machines, milling machines and so on).
10. We design, then make pilot samples and operate engineering models.
11. Our graduates can work in different spheres of human activity (management, designing and research development).
12. I'll do my best to become a highly-skilled engineer and work according to my speciality.
