

My laptop is not working, how do I get technology assistance??

For repairs during the length of our remote learning period, we will set up the tech center for repairs, much like we did last year.

This will be for students in grades 7-12 only.

Parents/students can make an appointment at <https://www.ltps.org/techsupport>.

Appointments will be available M-F from 8:00AM - 10:00AM and from 2:00PM - 4:00PM. We will be limiting the appointments to one every 10 minutes to limit exposure, and for most, we will just be swapping out a device, so there should be minimal contact.
