Flying Aircraft & Nuclear War

and Other Strange Occurrences of

The Past

Edited By

James Hartman

The Indian Epics, especially the MAHABHARATA, pick up the thread of the tale of devastation and destruction. Atlantis, rather displeased at its humiliating defeat, deceived that they were no longer interested in subjugating the Rama Empire (An Indian Empire), and decided instead to annihilate the major cities using weapons of mass destruction. Sanskrit scholars could not comprehend what was being described in the Epics until the dropping of the first atomic bombs on Japan. There are AUTHENTIC VERSES from the Indian Epics:

"Gurkha, flying a swift and powerful vimana (fast aircraft)
hurled a single projectile (rocket) charged with the power
of the Universe (nuclear device). An incandescent column of
smoke and flame, as bright as ten thousand suns, rose with
all its splendor.

It was an unknown weapon, an iron thunderbolt, a gigantic
messenger of death, which reduced to ashes the entire race
of the Vrishnis and the Andhakas.

The corpses were so burned as to be unrecognizable.
Hair and nails fell out; Pottery broke without apparent cause,
and the birds turned white.

...After a few hours all foodstuffs were infected...
...to escape from this fire the soldiers threw
themselves in streams to wash themselves and their
equipment."

ΔΔ The Mahabharata

Indeed, this story is said to be nearly 24,000 years old! If this is true than we are not the most advanced. As the Bible says "There is nothing new under the sun." Evidence for Atlantis is well documented.

If the above was not enough to convince your let me take you in

deeper into this nuclear war:

"(It was a weapon) so powerful that it could destroy the earth in an instant ΔΔ A great soaring sound in smoke and flames ΔΔ And on its sits death..."

ΔΔ The Ramayana

"Dense arrows of flame, like a great shower, issued forth upon creation, encompassing the enemy...
A thick gloom swiftly settled upon the Pandava hosts.
All points of the compass were lost in darkness.
Fierce wind began to blow upward, showering dust and gravel.

Birds croaked madly... the very elements seemed disturbed.
The earth shook, scorched by the terrible violent heat of this weapon.
Elephants burst into flame and ran to and fro in a frenzy...
over a vast area, other animals crumpled to the ground and died.
From all points of the compass the arrows of flame rained continuously and fiercely.

ΔΔ The Mahabharata

The Ramayana and the Mahabharata seem like science fiction. Not only did aircraft exist such as Vimanas and Vailxi (as the Atlantian craft are called), they had nuclear weapons. There seems to be a fear of educating the worlds people about the distant past. Even empires and leaders of China's past to Christians to Arab peoples would destroy history in such a way that records of there amazing cultures and events are nearly all wiped out. Indian Epics however are still with us intact. Records of South American history all but gone. Fear, and other factors have removed most of history before 5,000 years. Some only 1,000 years ago. In the America's just 300 - 500 years all most all lost! Today, perhaps some UFO records are going the way of fears gate! However, again a few stories live on.

In another amazing Indian text the Agastrya Samhita gives the precise directions for constructing electrical batteries:

"Place a well-cleaned copper plate in an earthenware vessel.

Cover it first by copper sulfate and then moist sawdust. After that put a mercury-amalgamated-zinc sheet on top of an energy known by the twin name of Mitra-Varuna. Water will be split by this current into Pranavayu and Udanavayu. A chain of one hundred jars is said to give a very active and effective force."

ΔΔ Agastya Samhita

(Indian Princes' Library)

By the way, MITRA-VARUNA is now called cathode-anode, and Pranavayu and Udanavayu are to us oxygen and hydrogen. This document again demonstrates the presence of electricity in the East, long, long ago. In the not so distant past strange events are recorded in Europe's past.

At Mount Cassino in Italy there is a large and heavy stone which was traditionally lifted by Saint Benedict (A.D. 448-548) by the neutralization of gravity. This stone was intended for the wall of the monastery being built at that time. The stonemasons could not budge it. However, Saint Benedict made the sign of the cross on the

block, and while the seven men who could not lift it looked in amazement, he raised it alone without any effort. If this is true, than its evidence of God's hand at work!

Even stranger is this: King Ferdinand I was a host to Saint Francis of Paula (1416-1505) in Naples. Through a half-opened door he witnessed the monk in meditation, floating high above the floor of his room.

Again in the fairly long ago past in China Emperor Cheng Tang (1766 B.C.), ordered Ki-Kung-shi to construct a flying chariot. The primeval aviation constructor completed the job and tested the aircraft. In flight, reaching the province of Honan. Subsequently, (from fear) the vessel was destroyed by imperial edict as Cheng Tang feared the secret of its mechanism might fall into the wrong hands. If one looks at the past he can foresee and even change the future. Will we be faithful to God as the saints and lift objects or ourselves by Gods power? Will we ever come to full out Nuclear War as the people of Atlantis and Rama 24,000 years ago?

Will we build Flying Chariots (Flying Saucers) and destroy them because we fear into what hands they will fall? What will man do to destroy his past, present or future? I leave that question up to you!!!
