

## Technology and Distance/Hybrid Learning Plan: Change Inc.

|                                                         |                       |
|---------------------------------------------------------|-----------------------|
| <b>Consortium name</b>                                  | SPCLC, Change Inc.    |
| <b>Staff contact</b>                                    | Laura Ott, Change Inc |
| <b>Plan implementation period (start and end dates)</b> | 2026-2027             |
| <b>Date of last update</b>                              | Spring 2026           |

### Technology resources:

| Current                                                                      |                                    |          |
|------------------------------------------------------------------------------|------------------------------------|----------|
| Hardware: Laptops are issued to students                                     |                                    |          |
| Software: Microsoft TEAMS, IXL, Northstar Digital Literacy, Elli, Typing.com |                                    |          |
| Other: Readworks, Readtheory, Newsela                                        |                                    |          |
| Future Plans                                                                 | Resources needed                   | Timeline |
| Continue to distribute laptops to each enrolled student                      | On-going funding                   | Always   |
| Continue to use IXL, typing.com, NDL, Elli                                   | Ongoing funding for IXL, sustained | Always   |
|                                                                              |                                    |          |

### Expectations for staff digital literacy skills and use of technology:

| Current                                                                                                                         |                                           |          |
|---------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------|----------|
| Instructors utilize the TEAMS platform, utilize IXL and assess students quarterly.                                              |                                           |          |
| Support staff are expected to                                                                                                   |                                           |          |
| Managers ensure CTEP and ABE staff utilize Northstar Digital Literacy platform as needed, embedding content into class content. |                                           |          |
| Future Plans                                                                                                                    | Resources needed                          | Timeline |
| See above, ongoing                                                                                                              | Staff training via webinars, PD offerings | ongoing  |
|                                                                                                                                 |                                           |          |

### Training for staff on technology:

| Current                                      |  |  |
|----------------------------------------------|--|--|
| Instructors receive training on              |  |  |
| Support staff receive training on SiD, TEAMS |  |  |
| Managers receive training on SiD, TEAMS      |  |  |

| Future Plans                  | Resources needed | Timeline  |
|-------------------------------|------------------|-----------|
| Train staff/onboard as needed | None             | As needed |
|                               |                  |           |

### Technology access for students:

| Current                                                                                     |                  |          |
|---------------------------------------------------------------------------------------------|------------------|----------|
| Students have access to Northstar Digital Literacy curriculum, TEAMS, IXL, Typing.com, Elli |                  |          |
|                                                                                             |                  |          |
| Future Plans                                                                                | Resources needed | Timeline |
|                                                                                             |                  |          |

### Asynchronous distance learning (students do work off-site, on their own time):

| Current                               |                  |          |
|---------------------------------------|------------------|----------|
| Northstar Digital Literacy curriculum |                  |          |
|                                       |                  |          |
| Future Plans                          | Resources needed | Timeline |
|                                       |                  |          |

### Remote synchronous learning (students are offsite but join class at the same time):

| Current                                                                        |                         |          |
|--------------------------------------------------------------------------------|-------------------------|----------|
| Students can join a synchronous class online via the Microsoft TEAMS platform. |                         |          |
|                                                                                |                         |          |
| Future Plans                                                                   | Resources needed        | Timeline |
| Continue to utilize the TEAMS platform                                         | Budgeted for the school | Ongoing  |
|                                                                                |                         |          |

### Other/combined formats

| Current                                                                                        |                  |          |
|------------------------------------------------------------------------------------------------|------------------|----------|
| Hybrid synchronous and asynchronous: TEAMS                                                     |                  |          |
| Hyflex (some students in person, some online): Students utilize TEAMS for the Hyflex scenario. |                  |          |
|                                                                                                |                  |          |
| Future Plans                                                                                   | Resources needed | Timeline |
| Same as above                                                                                  |                  |          |
