TRANSLATION TOOLS AT-A-GLANCE

NOTE: This is not a list of all tools and tools frequently change. Automated translations are also not perfect.

Chromebook Language Settings	94% - 17:45 left ⚙️ Settings — Sep 20 — 12:24 US	In **Settings**, search for **Languages**. Set: • **Device language** (require restart) • **Website Languages** (ranked), and • **Google Account language** (for Gmail, Drive, etc.). Search for **Keyboard** and select **Change input settings** to set a different keyboard.

Immersive Reader

[See this help document](#), which includes uses also shared here.

*NOTE: The Immersive Reader Chrome extension is no longer working. Try Helperbird where it is referenced.*

*Immersive Readers provides a unique option for read aloud of Pashto translations.

[Microsoft One Note Website](#) - Use from a web browser.

Try Immersive Reader with your own reading material

> Learning Tools Immersive Reader creates a reading experience that adds accessibility and comprehension for learners of all ages and abilities.

English (United States) — TRY IT OUT >

Translate
Pashto ⌄
By word ●
Document ●

- Scroll to the "Try Immersive Reader" text box.
- Enter text and click **TRY IT OUT >**
- In right-pane, select Reading Preferences
- Select translation language.
- Make sure to toggle on **Document**.

In **Schoology**, click **Immersive Reader**.

📖 Immersive Reader ⚙️⌄

Available for students from assignment or page material.

[Helperbird Chrome Extension](#) - Many tools with free version, including Immersive Reader (translation for 64 languages, but no Pashto currently).

[Helperbird Add-On](#) (for Docs, Slides, Drive) - Open the Helperbird menu within these programs. Once installed, go to **Extensions → Helperbird → Open**

Google Translate Chrome Extension ● [Install the extension](#). ● Set language for translation in **Extension Options**. 𝐓 🌐		Translate entered text. Type or paste.
		Translate current website by clicking **TRANSLATE THIS PAGE**.
		Use pop-up Translate tool when highlighting text.
		Highlight text and right-click (2-finger tap) to access Google Translate.
Google Translate Mobile App ● Download for [iOS](#) or [Android](#). 𝐓 ✏️ 🎤 📷		Translate entered text. Type, paste, write, use microphone, or use camera. **Camera** mode is helpful for translating printed text like signs or handouts.
		Translate spoken words. Use the microphone or try the **Conversation** or **Transcribe** modes.
Translation with Read&Write Extension ● [Install the extension](#). ● Set language for translation in **Settings**. 𝐓		Use the translate tool on the Read&Write toolbar. This works well for translating one selected word at a time so it's a good scaffold once a student no longer needs full text translation.

Google Docs Translation ● Tools → Translate document 		Create a copy of a Google Doc that is translated.
Google Sheets Translation Formula T	**=GOOGLETRANSLATE(cell with text, "source language","target language")** *Example:* =GOOGLETRANSLATE(A2, "en","es") Use 2-letter codes for languages.	Translate text in a cell. *BONUS:* Make a copy of this template to use/edit.

Context	Recommended Tool(s)	Notes
Chromebook Device	Chromebook Language Settings	Changes the language for the device (beyond web content); requires a restart when resetting.
Person-to-Person Communication	Google Translate Mobile App	Allows input by typing, voice, and image; possible limitations with no WiFi or cell service on campus.
	Google Translate Website	Good alternative to Google Translate Mobile App for use with Chromebook / school WiFi.
	Immersive Reader: Microsoft One Note Website option (for read aloud)	Input by typing, but a nice feature is the read aloud of output, including in Pashto, particularly if a student depends on oral communication.
Translate full web pages	Google Translate Chrome Extension	Use **Google Translate** web address bar icon
	Immersive Reader: Helperbird	Click extension to open toolbar and **Translate website**.
	Google Translate Website	Paste link for site to translate
Translating highlighted chunks of text on websites	Google Translate Chrome Extension	Highlight text and right-click (2-finger tap), then select **Translate selection to…** or **Google Translate**.
	Immersive Reader: Helperbird	Highlight text and right-click (2-finger tap), then select **Helperbird** and then **View in Immersive Reader**.
Schoology	Immersive Reader: Schoology	When **Immersive Reader** button is available.
	Tips for translating highlighted chunks of text may also work depending on content.	
Google Docs	Google Docs Translation	Creates a whole translated copy of doc..
	Immersive Reader: Helperbird	User Helperbird for Docs Add-On to translate highlighted text.
Translating a word-at-a-time	Translation with Read&Write Extension	Click extension to open toolbar and select translation tool. Then, click on words to translate.
