- Budget

Thank You and Good Night!

SAC Purpose: Develop and define in concert with the Pastor and Principal the policies which govern the operation of the school, promote the implementation of policies, and provide counsel and advice in the operation of the school.

School Mission: Called to be “the eyes and hands and heart of the Risen Jesus,” St. Pius X Parish School provides a faith-centered Catholic education that builds community, forms life-long learners, and promotes academic and moral excellence.

School Philosophy: Catholic education is a ministry of the whole parish. We believe that faith formation is a shared responsibility among parents, Church and school – one parish community. St. Pius X School fosters the holistic development of each child’s gifts in a student-centered environment. Our way of proceeding is to witness the teachings of Christ and the traditions of the Church in order to foster academic excellence and moral maturity. We develop life-long learners and stewards of our global community.
