

LESSON PLAN

Week of: March 30th

Class: Beginning Band

google.com/classroom

class code:p5fyvle

Username: (student #)@pilgrims.npschools.us

Password: (student selected, if you need a reset, it will be students # and two initials)

Topic/Assignment Name: Practice and Theory

Lesson Activities

Objective/Goal:

- Practice 20 min a day or 2 hrs a week.
 - Extra material to be provided asap if needed
- Theory Homework- Enharmonics with sharps and flats
- Sight reading challenge: Complete at least three sight reading challenges this week
- Playing tests (if possible)

Activity/Outline:

- Please use youtube to help with practice. I will be posting scores and parts as fast as I can type them out.
- Students are to post playing tests if they can on google classroom. This will require some recording equipment. I am working to get a program so they can do it live from home but we are having trouble in the testing phase.
- Theory homework will be posted asap. Students are to color one keyboard for sharps and one for flats. Each note will be color coded. You can either take a picture or turn them in when we return.
- Sight reading will require level 1 or 2, but students may test themselves further. Please select the instrument that your student is using and play in the key of B-flat, E-flat, or F Major. They can also mess with G, C, or D minor. Examples must be 8 measures long. You can use my username and password below if you run out of free trials. I am trusting you that you are completing these on your own.
