OVERALL, I like drawing characters with a surrealistic/weirdcore vibe! I also LOVE LOVE LOVE doing complex designs. I'm better at drawing girls, but I'm learning to do men. :]

As long as it's not a hyper realistic human, I can probably try to draw it with decent results,, or maybe that's just my ego

I'll draw your ocs in a different outfit for free if you just say the word!! (I like drawing pretty clothes)

Character design

Here are some examples of concept art relating to characters I have designed, as well as a few adoptables. All are fairly recent and are characters I've designed myself.

Recent, cleaned sketch

Commission information

My commission status is OPEN! I can do concept art, character references, or customs. I will accept cashapp or PayPal only (USD) at this time.

I don't do heavy NSFW Or fetish art, but mildly suggestive clothes are okay depending

-I like to experiment with my style a LOT! If there's a specific kind of effect you'd like, feel free to ask!

- I am not comfortable drawing FRESH self harm scars due to potential triggers for myself.

-I will draw furies, (non-realistic) humans, anthro, and ponies. I can try mech, but they might not translate well into my style.
