

## Purchasing: Bids and Contracts

The Superintendent shall establish bidding and contract awarding procedures for all purchases of furniture, supplies, materials, equipment building improvements or repairs or other work in the necessary quantity and acceptable quality to meet district operational and project requirements. Such procedures shall ensure compliance with state and federal requirements and provide a means to obtain competitive pricing for District expenditures.

The procedures shall also promote open competitive participation by vendors.

Bid or quotation requirements shall be waived when the Board declares an emergency or when purchases are clearly limited to a single source of supply. The Board may reject any and all bids and make further calls for bids in the same manner as the original call. The Board reserves the right to purchase through an inter-local cooperative agreement with another governmental agency provided such agency has complied with the bidding requirements that are applicable to school districts.

The board shall include in each contract a proviso requiring the contractor to prohibit any of its employees who has ever been convicted of or pled guilty to any of the child related felonies from working where he/she would have contact with public school children. The contract shall also provide that failure to comply with this requirement is grounds for immediate termination of the contract.
