

## 3rd Paideia Seminar 2017

# Statement: Is being civilised such a good thing?

### Questions/Ideas to think about:

1. What are the pros and cons of advanced countries vs African countries that lack automation e.g. technology
2. Products were created to make life easier, faster and automated BUT it's destroying the planet
3. How can the human race adapt as a species in order to survive on other planets?
4. What are the advantages of humans adapting to another world, when they are perfectly suited to earth?
5. Would it be better for mankind to explore further out in space for a better chance to survive
6. Is our world the only kind of way of living? Is there another way of living?
7. What would education be like in a new world/planet?
