[b]Introduction[/b]
Here comes the first Pucca community Tournament. It is a Capture the Flag free-for-all tournament. You asking yourself what the heck is CTF? Well it is a Brood War game mode where you spawn normally except now you have a beacon! This beacon after 10 minutes will spawn a flag. It is your job to take your opponents flags if so, it is a instant elimination if someone elses flag reaches your or someone elses beacon. Your goal is to be the last man standing.

[b]Prize[/b]
What is a tournament without a prize? First place will be given 20$ USD (more if we have some people donate). First place will also receive the...MYSTERY BOX!!!! Have no fear there will be some epic collectables. If your the winner it is your job to tell the world what you found in the mystery box however. So you have a obligation. Not only are their some "hidden gems" inside there it is hand signed by me Pucca or my more recent name Fitz. Hand signed my yours truly. Here are some picture if you want to waste your time.

[b]VODs[/b]
Being a caster, I know the importance to get coverage of any event. I will dedicate to cast all

games if interested and want to cast this “interesting” league feel free to contact me. I’ll be sure to embed into the OP, or make a separate VODs thread altogether.

[b]Schedule[/b]
I understand making this tournament work is going to be a challenge. Varying time zones and now you have 3 other opponents. I will do my best for the first set of groups by time zones so it easier to organize the game time. As for the time the tournament will start I’d think two weeks to a week from when this is written it will give us enough time to get enough players.

[b]RULES[/b]
~ Have fun
~ No early GG you have to stay in the game in till you flag has been captured and you are eliminated from the game
~ Not a rule, but be wary of other players having fun within this league, so I’d recommend no rush 10 minutes but with no way to enforce it is not a mandatory rule.
~ Winner [b]MUST[/b] email me at international.cyber.cup.tv@gmail.com and send me the replays of their group
~ No hacking, no excessive BM, use iCCup Launcher if possible
