

Writing a Paragraph

Instructions: Read the paragraph below comparing two ways of traveling.

Ways to Travel

Most cities have buses and trains, but some cities have more unusual ways to travel. In San Francisco, some people travel by trolley. In Venice, people sometimes travel by gondola. Both the trolley and the gondola are more fun than the bus or the train. The gondola is more romantic than the trolley, but the trolley is more exciting, especially when you're traveling down one of San Francisco's steep streets.

Now write your own paragraph comparing to other ways of traveling. Make sure you include at least four examples of comparisons. Also insert photos of the transportation options you are describing.
